Estimated Annual Volume: \$25,905,299
Spend to Date: \$3,489,415 (10/21/2013-12/31/2013)
Original Estimated Annual Cost Savings (if any): \$3,980,008
Background: This contract established a Managed Service Provider (MSP) to manage all of the State’s temporary and contract labor. An MSP is a company that takes on responsibility for managing an organization’s contingent workforce program and ensuring that rates and fee structures are in line with the market. The original procurement was an RFP. The Central Procurement Office implemented the MSP contract as follows: the IT portion of the MSP contract was implemented on October 21, 2014; and the general administrative portion of the MSP contract was implemented on November 18, 2014. The Central Procurement Office began implementing the medical portion on January 20, 2014. The purpose of this amendment is a housekeeping amendment to correct a scrivener’s error, to correct attachments two and three, and clarify the addendum clause.

Background: Product was originally available under the statewide pharmaceutical contract. The manufacturer chose to distribute proprietary product directly to its customers. This is used by the Dept of Health for the Family Planning program. Dept of Health receives federal grant money for this program; they must follow grant funding requirements which includes providing this birth control option.

¹ Although this product is sold through the manufacturer's channels of distribution, which would make this a proprietary procurement, it is being procured directly as a sole source through the manufacturer due to the unavailability to procure through the manufacturer's authorized channels of distribution.
