RE: Public Consulting Group, Inc.
Gorman Actuarial, LLC.
Health Management Associates, Inc.

Dear Mr. Geise:

The Department of Finance and Administration, Division of Health Care Finance and Administration, is submitting for consideration by the Fiscal Review Committee the following three competitively procured amendments which were originally procured to provide consulting services in preparation for the development and implementation of the state operated healthcare exchange.

Public Consulting Group, Inc. – Amendment #4
Gorman Actuarial, LLC. – Amendment #3
Health Management Associates, Inc. – Amendment #3

The State of Tennessee has informed the federal government that the State will not run a state operated healthcare exchange. As a result, the State is amending these competitively-procured contract to extend the term for an additional year in order to adequately prepare for and evaluate the impact of a health insurance exchange on our state. These three contractors have expertise and information that will assist the State to understand the potential for exchanges in the insurance market pending federal subsidization of health insurance for many Tennesseans, the new reinsurance and risk adjustment programs, and the groups working under federal navigator grants. The impact of these changes and other changes due to health reform in the coming year cannot be exactly predicted, however these three (3) contractors will be a useful support as Tennessee responds. It is advantageous for Tennessee to proceed with these non-competitive contract amendments which provide term extension only. No additional funds are being added to these contracts.

Mr. Lucian Geise, Director

RE: AON Consulting, Inc., Amendment #1
Public Partnerships, LLC, Amendment #1
Public Consulting Group, Inc., Amendment #3
Health Management Associates, Inc., Amendment #2
Gorman Actuarial, LLC, Amendment #2

Dear Mr. Geise:

The Department of Finance and Administration, Division of Health Care Finance and Administration, is submitting for consideration by the Fiscal Review Committee amendment #2 to Gorman Actuarial, LLC, amendment #3 to Public Consulting Group, Inc., and amendment #2 to Health Management Associates, Inc., all of which are competitively procured contracts for actuarial and benefit consulting services for the Health Insurance Exchange. Because of the continuing policy changes at the federal level and the magnitude of the market impacts in Tennessee, the State sought additional planning federal funds which were awarded in November, 2011 and February, 2012. The purpose of these amendments is to provide additional funding for consulting services regarding health insurance exchanges and for making evidence-based recommendations to the State. The State indicated in both the RFP and resulting contract that contract funding would be increased as needed and as availability of additional federal funding dictated. These amendments are all 100% federally funded.

Additionally, we are submitting amendment #1 to the existing competitively procured contract with AON Consulting, Inc., the contract for provision of actuarial services relevant to managed care organization rate structure in the TennCare program, as well as federally required independent audits of Disproportionate Share Hospital (DSH) payments. This amendment is necessary to provide sufficient funding to cover projected expenses for the remainder of the contract period.

Lucian Geise, Director
June 29, 2012
Page 2

Finally, we are submitting amendment #1 to Public Partnerships, LLC, the competitively procured contract for financial administration and supports brokerage functions for the TennCare CHOICES program. This amendment provides required language updates relevant to the *Money Follows the Person (MFP) Rebalancing Demonstration Operational Protocol* for the state to increase the number of persons receiving Medicaid-reimbursed Home and Community Based Services (HCBS) participating in consumer direction during each year of the demonstration. Additional language is being added to the contract to include the CHOICES 3 population as eligible population for consumer direction. Sufficient funding is available in the existing contract, therefore, no additional funds are necessary.

The Bureau of TennCare would greatly appreciate the consideration and approval of these amendments by the Fiscal Review Committee.

Sincerely,

Casey Dungan
Chief Financial Officer

14. Explanation Need for the Proposed Amendment	<p>The State is amending this competitively-procured contract to provide additional needed funding for actuarial and benefit consulting services regarding health insurance exchanges and for making evidence-based recommendations to the State. The State has received additional planning funds to analyze evolving federal guidance regarding the exchange marketplaces. Because of the continuing policy changes at the federal level and the magnitude of the market impacts in Tennessee, we sought additional planning funds (which we were awarded on November 29, 2011), and we now need the corresponding technical assistance to analyze the emerging issues in the market and revise our</p>

recommendations if and as appropriate. The State indicated in both the RFP and resulting contract that contract funding would be increased as need and additional federal funding dictated.	
<p>15. Name & Address of the Contractor's Principal Owner(s)</p> <p>Bela Gorman, President Gorman Actuarial, LLC 210 Robert Road Marlborough, MA 01752</p>	
<p>16. Evidence Contractor's Experience & Length Of Experience Providing the Service</p> <p>Gorman Actuarial, LLC has provided actuarial and benefit consulting assistance to the State Health Insurance Exchange since the execution of the original contract (effective April 1, 2011), which was awarded under the original Request for Proposal (RFP # 31701 – 04100). The Contractor's work under the Contract has been more than satisfactory and performed in a manner consistent with the representations that it made in its proposal to the original RFP.</p> <p>Gorman Actuarial is currently working with several states on understanding the impact of national health reform on their current insured markets. In addition to Tennessee, Gorman Actuarial's client list includes the states of Wisconsin, Wyoming, Minnesota, Nevada, and Maine. Gorman Actuarial has also performed several analyses on the insured markets in the state of New York. Additionally, Gorman Actuarial has worked on various state public expansion programs such as New York's Family Health Plus program and Maine's DirigoChoice program. <p>17. Efforts to Identify Reasonable, Competitive, Procurement Alternatives</p> <p>The State released a Request for Proposal and identified Gorman Actuarial, LLC, as the proposer with the highest combined technical/cost score and expertise necessary to guide the direction of the State related to health insurance exchanges and other aspects of the implementation of the Patient Protection and Affordable Care Act. Thus, we are relying on a recent competitive procurement to perform functions that are consistent with the scope of the original contract. As part of the RFP we communicated to vendors that the State may receive additional planning funds over and above the initial \$1 million planning grant. In the interest of full disclosure and transparency with the potential bidders, we also stated our intent to use the contracts awarded through this procurement as vehicles for the additional work that may be required if the State received other grants. The State stipulated the following in the RFP Statement of Purpose:</p> <p><i>The maximum liability for this contract is undetermined and contingent upon policy decisions by the Governor and the General Assembly; the maximum liability is also a function of the continued (and perhaps expanded) availability of federal funding. In the event that Tennessee chooses to operate an insurance exchange and the State receives additional federal funding for technical assistance and actuarial analyses, then the State likely will use the contract from this procurement for said work.</i></p> <p>The State anticipated expending the \$1 million planning grant funds by the end of CY 2011 and clarified that we</p>	

Request Tracking #	31865-00705
<p>may use this contract as the payment vehicle for additional, federally-funded analyses. In the event that Tennessee chooses to operate an insurance exchange and the State receives additional federal funding for technical assistance and actuarial analyses, then the State likely will use the contract from this procurement for said work. The State does not currently anticipate an additional procurement for actuarial services for the insurance exchange within the next 12 to 18 months. Thus, all potential proposers in the original procurement had full information of the State's intended approach and future plans.</p>	
<p>18. Justification – <i>specifically explain why non-competitive negotiation is in the best interest of the state</i></p> <p>The federal government continues to issue guidance regarding its interpretation of the Patient Protection and Affordable Care Act (Pub. L. 111-148), as amended. In many instances, the new guidance is in contrast to earlier guidance or represents a reversal of previous policy statements and commitments. Because the implications for Tennessee's insurance markets are substantial and involve seismic-shifts in market design and structure, we have worked closely with insurers and other stakeholders to determine which analyses should take priority, and we continue to work with the Contractor to secure the appropriate technical assistance with regard to the potential impacts of evolving federal policy. Given the compressed timeframe for analysis and decision-making, we need to proceed with an experienced actuary who is intimately familiar with our operational context, policy concerns, and market conditions in order to ensure that the actuary can provide highly informed, Tennessee-specific analyses and recommendations.</p> <p>Anticipating this eventuality and wanting to maximize interest in the original procurement, we communicated our intentions to all potential bidders with the original RFP so that they would be able to incorporate this possibility into their planning and bidding strategy. We used this approach to ensure that any subsequent request for a contract modification (including the one described here) would be entirely consistent with the State's goal of maximizing efficiency and use of successfully-procured contracts through truly competitive procurement processes.</p> <p>The State will need to revisit all of this after the Supreme Court issues its ruling on the PPACA currently projected to be on or before June 29, 2012. The objective now is to be prepared with a contingency plan and have adequate resources in place in the event that the Governor directs us to move forward with the implementation of a state-based exchange after the Court issues its opinion. Because of the aggressive implementation schedule (with the federal certification of a state-based exchange required by January 1, 2013), time is of the essence, and we need to have this contract amendment in place to use as needed on August 1, 2012. For this and all of the reasons described above, it is advantageous for Tennessee to proceed with this non-competitive contract amendment which provides additional federal funding to sustain the ongoing and projected work of this Contractor. The consideration and approval of this amendment would be greatly appreciated.</p>

RE: Gorman Actuarial, LLC, Amendment #1

Mr. Lucian Geise:

The Department of Finance and Administration, Division of Health Care Finance and Administration, is submitting for consideration by the Fiscal Review Committee amendment #1 to Gorman Actuarial, LLC, the State's competitively procured contract for actuarial and benefit consulting services for the Health Insurance Exchange. Because of the continuing policy changes at the federal level and the magnitude of the market impacts in Tennessee, the State sought additional federal funds which were awarded on November 29, 2011. The purpose of this amendment is to provide additional funding for consulting services regarding health insurance exchanges and for making evidence-based recommendations to the State. The State indicated in both the Request for Proposal and resulting contract that contract funding would be increased as needed and as availability of additional federal funding dictated.

The Division of Health Care Finance and Administration would greatly appreciate the consideration and approval of this amendment by the Fiscal Review Committee.

Sincerely,

Casey Dungan
Chief Financial Officer

This amendment does not include proposed savings, however, the State followed a procurement strategy that involved an "early-to-market" RFP and awarded this contract based on competitively procured rates.

Comparison of cost per fiscal year of obtaining this service through the proposed contract or amendment vs. other options. List other options available (including other vendors), cost of other options, and source of information for comparison of other options (e.g. catalog, Web site). The State released a Request for Proposal and identified Gorman Actuarial, LLC as the actuarial company determined to have the expertise necessary to guide the direction of the State related to health insurance exchanges and other aspects of the implementation of the Patient Protection and Affordable Care Act. We are relying on the existing competitive procurement to perform functions that are consistent with the scope of the original contract and have not compared any non competitive options.

Explanation Need for the Proposed Amendment	<p>The State is amending this competitively-procured contract to provide additional funding for actuarial and benefit consulting services for the health Insurance Exchange. The State has received additional planning funds to analyze evolving federal guidance regarding the exchange marketplaces. Because of the continuing policy changes at the federal level and the magnitude of the market impacts in Tennessee, we sought additional planning funds (which we were awarded on November 29, 2011), and we now need the corresponding technical assistance to analyze the emerging issues in the market and revise our</p>

recommendations if and as appropriate. As explained below in item #17, the State indicated in both the RFP and resulting contract that contract funding would be increased as need and additional federal funding dictated.	
15. Name & Address of the Contractor's Principal Owner(s) Bela Gorman, President Gorman Actuarial, LLC 210 Robert Road Marlborough, MA 01752	
16. Evidence Contractor's Experience & Length Of Experience Providing the Service Gorman Actuarial, LLC has provided actuarial and benefit consulting assistance to the State Health Insurance Exchange since the execution of the original contract (effective April 1, 2011), which was awarded under the original Request for Proposal (RFP # 31701 – 04100). The Contractor's work under the Contract has been more than satisfactory and performed in a manner consistent with the representations that it made in its proposal to the original RFP. Gorman Actuarial is currently working with several states on understanding the impact of national health reform on their current insured markets. In addition to Tennessee, Gorman Actuarial's client list includes the states of Wisconsin, Wyoming, Minnesota, Nevada, and Maine. Gorman Actuarial has also performed several analyses on the insured markets in the state of New York. Additionally, Gorman Actuarial has worked on various state public expansion programs such as New York's Family Health Plus program and Maine's DirigoChoice program. Below are links to some of Gorman Actuarial's published reports and work products. 17. Efforts to Identify Reasonable, Competitive, Procurement Alternatives The State released a Request for Proposal (RFP # 31701 – 04100), and identified Gorman Actuarial, LLC as the proposer with the highest combined technical/cost score and expertise necessary to guide the direction of the State related to health insurance exchanges and other aspects of the implementation of the Patient Protection and Affordable Care Act. Thus, we are relying on a recent competitive procurement to perform functions that are consistent with the scope of the original contract. Notice was given to all potential bidders in the original procurement of our intention to proceed in this fashion. As part of the RFP (RFP # 31701 – 04100), we communicated to vendors that the State may receive additional planning funds over and above the initial \$1 million planning grant. In the interest of full disclosure and transparency with the potential bidders, we also stated our intent to use the contracts awarded through this procurement as vehicles for the additional work that may be required if the State received other grants. In Amendment #1, we added the following text to RFP Section 1.1: <p style="padding-left: 40px;">The maximum liability for this contract is undetermined and contingent upon policy decisions by the Governor and the General Assembly; the maximum liability is also a function of the continued (and</p>

perhaps expanded) availability of federal funding. In the event that Tennessee chooses to operate an insurance exchange and the State receives additional federal funding for technical assistance and actuarial analyses, then the State likely will use the contract from this procurement for said work. Indeed, the State does not currently anticipate an additional procurement for actuarial services for the insurance exchange within the next 12 to 18 months. Please note that proposers may submit proposals for (and be awarded contracts under) both this procurement and RFP #31701-04101 (Policy and Operational Consulting Related to Federal Health Insurance Reform). Consistent with RFP Section 3.3.8.(d), entities that intend to submit proposals should be aware that if they submit a proposal for the current actuarial services procurement, they may be ineligible to submit a proposal to operate the website portal, call center and other components of a state-based insurance exchange in Tennessee. All potential proposers for this RFP should assume that the prevailing contractors in this actuarial services procurement would be precluded from bidding on RFPs for the actual operation of a state-based insurance exchange in Tennessee.

The State amplified this message in our response to question #12 posted in Amendment #2 of the RFP:

The State anticipates expending the \$1 million planning grant funds by the end of CY 2011. As clarified in Amendment # 1, though, we may use this contract as the payment vehicle for additional, federally-funded analyses. In the event that Tennessee chooses to operate an insurance exchange and the State receives additional federal funding for technical assistance and actuarial analyses, then the State likely will use the contract from this procurement for said work. Indeed, the State does not currently anticipate an additional procurement for actuarial services for the insurance exchange within the next 12 to 18 months.

Thus, all potential proposers in the original procurement had full information of the State's intended approach and future plans.

18. Justification – *specifically explain why non-competitive negotiation is in the best interest of the state*

The federal government continues to issue guidance regarding its interpretation of the Patient Protection and Affordable Care Act (Pub. L. 111-148), as amended. In many instances, the new guidance is in stark contrast to earlier guidance or represents a reversal of previous policy statements and commitments. Because the implications for Tennessee's insurance markets are substantial and involve seismic-shifts in market design and structure, we have worked closely with insurers and other stakeholders to determine which analyses should take priority, and we continue to work with the Contractor to secure the appropriate technical assistance with regard to the potential impacts of evolving federal policy. Given the compressed timeframe for analysis and decision-making, we need to proceed with an experienced actuary who is intimately familiar with our operational context, policy concerns, and market conditions in order to ensure that the actuary can provide highly informed, Tennessee-specific analyses and recommendations.

Anticipating this eventuality and wanting to maximize interest in the original procurement, we communicated our intentions to all potential bidders with the original RFP so that they would be able to incorporate this possibility into their planning and bidding strategy. The procurement had six qualified proposers, from which we selected the highest-scoring bidder. We used this approach to ensure that any subsequent request for a contract modification (including the one described here) would be entirely consistent with the State's goal of maximizing efficiency and use of successfully-procured contracts through truly competitive procurement processes.

The State could proceed with a new procurement for these services. However, given the amount of work available in each of the 50 States and the U.S. territories and the shortage of subject matter experts working in this area, it is unlikely that Tennessee would receive a large number of proposals from qualified actuaries. Precisely for this reason, the State followed a procurement strategy that involved an "early-to-market" RFP in December 2010 and awarded contracts to vendors before many other states were able to do so, thereby ensuring that Tennessee would have the "best-in-class" actuaries working on this project. For this and all of the reasons described above, it is advantageous for Tennessee to proceed with this non-competitive contract amendment.

In circumstances where an opportunity to cure is not available, termination will be effective immediately.
- b. Notwithstanding the foregoing, the Contractor shall not be relieved of liability to the State for damages sustained by virtue of any breach of this Contract by the Contractor.

D.5. Subcontracting. - D.12. Strict Performance. Failure by any party to this Contract to insist in any one or more cases upon the strict performance of any of the terms, covenants, conditions, or provisions of this Contract shall not be construed as a waiver or relinquishment of any such term, covenant, condition, or

provision. No term or condition of this Contract shall be held to be waived, modified, or deleted except by a written amendment signed by the parties hereto.

- D.13. Independent Contractor. The parties hereto, in the performance of this Contract, shall not act as employees, partners, joint venturers, or associates of one another. It is expressly acknowledged by the parties hereto that such parties are independent contracting entities and that nothing in this Contract shall be construed to create an employer/employee relationship or to allow either to exercise control or direction over the manner or method by which the other transacts its business affairs or provides its usual services. The employees or agents of one party shall not be deemed or construed to be the employees or agents of the other party for any purpose whatsoever.

The Contractor, being an independent contractor and not an employee of the State, agrees to carry adequate public liability and other appropriate forms of insurance, including adequate public liability and other appropriate forms of insurance on the Contractor's employees, and to pay all applicable taxes incident to this Contract.
