Background: CPO is finalizing a cost benefit analysis to include servers on the same cooperative contract we utilize for storage product procurements, but cannot finalize analysis and begin negotiations until the new cooperative is officially in place. Minnesota, the host state for the new WSCA contract, is in the negotiation phase of their reprocurement of these product categories. The new contract was originally anticipated to begin 09/01/14, but negotiations are still ongoing and the cooperative will not be in place by then. CPO is requesting an additional ninety day extension of our server contract to allow a thorough evaluation to join the new WSCA contract for servers. The State will exercise this extension in 30-day increments and does not expect to utilize the full extension period.

Background: This contract is for statewide uniform and linen rental. Vendors provide the requested line items then return to pick up the soiled items while exchanging for clean linens and uniforms. This contract prevents users from having to purchase and maintain inventory of these items while also eliminating the need for industrial washers, dryers and operators on site at each location. This contract can also be used to complement the user's current inventory in high demand situations. We are also amending this contract to change the contract holder of American Towel and Rental for contract number 29480 to be Universal Linen. This is due to Universal Linen's purchase of American Towel and Linen in its entirety.

Background: It is illegal for commercial entities to dispose of light bulbs containing mercury in the trash so this contract allows agencies to stay within the set EPA regulations. The purpose of this contract is to provide a safe and environmentally friendly way for State agencies to dispose of light bulbs and ballasts that are no longer in functioning order. The agencies are required to notify the vendor when they are ready for removal of bulbs. Bulbs can either be sent intact or broken, the vendor accepts both ways.

Original Estimated Annual Cost Savings (if any): \$4,158,611.00

Background: SWC #400 Multifunction Devices & Services with Canon offers highly competitive pricing when compared to previous statewide contracts and current market rates. The State combined three contracts with the creation of this contract – SWC #3010 Printers, #404 Copiers Leased, and #408 Fax Equipment. It is estimated that the State will save upwards of \$20,800,000 over the life of the contract, which is largely based on the State's consolidation of owned and leased devices. To help agencies realize these savings, Canon will perform free assessments which will provide an analysis on current state vs. recommended future state as well as the potential savings obtained by moving to the recommended solution. This request for an amendment is to add an addendum to allow the addition of equipment within the scope of the contract to better suit State needs once the pricings is found to be competitive.

Background: The State needs access to a wide range of pharmaceuticals including vaccines, injectables, clinical bulk doses, unit doses, over the counter, prescription drugs, and have access to 340 B federally priced products which requires that the state utilize a national pharmaceutical supplier. The CPO partnered with agency users on a Strategic Sourcing initiative for pharmaceuticals during FY 2013 that validated the savings of the MMCAP contract for pharmaceutical products over other available contracts and created an additional savings amount of \$ 387,583 annually. This contract is catalog based where products are ordered through a secure, online ordering system. This is a request to extend the contract for a period of 90 days to allow adequate time to receive the newly awarded pharmaceutical product contracts from the Minnesota Multi-State Cooperative Alliance for Pharmaceuticals (MMCAP), to evaluate each contract offering, and to select a pharmaceutical wholesaler. The contract extension notice was received August 12, 2014 from MMCAP.
