Mr. Mike Perry, Chief Procurement Officer
Department of General Services
Tennessee Tower, 3rd Floor
Nashville, TN 37243

Dear Director Spalding and CPO Perry:

The Department of Health, Laboratory Services, is requesting sole source approval to establish a multi-year (three (3) years with two (2) options to renew) contract for the purchase of reagent kits for the testing of Biotinidase (BIO) in newborns. Two 1/8" spots of dried blood are used for this methodology. Other methods require blood to be collected by conventional means into a vacutainer tube which is not an acceptable method as newborns do not have an abundance of blood in their circulatory system. Tennessee Code Annotated §68-5-401 mandates Biotinidase to be screened on all infants born in the State of Tennessee.

It is essential this testing be conducted to identify potential health concerns which can be treated immediately, in some cases, by a change in diet enabling normal growth and development of the infant. The vendor will provide the kits, instrumentation, software, updates and maintenance at no additional charge. This methodology is FDA approved and meets the requirements of the lab licensing agency CLIA. The total cost of a three (3) year contract with two (2) options to renew will be \$787,220.00. The first three years total cost will be \$475,332.00

We appreciate your approval to proceed with this contract and thank you for your consideration.

Sincerely,

John J. Dreyzehner, MD, MPH, FACOEM
Commissioner

MEMORANDUM

TO: Director of Sourcing
Staff Attorney – Sourcing

FROM: Sourcing Account Specialist

DATE: May 12, 2015

SUBJECT: Recommendation of Sole Source Approval
Contractor: Perkin Elmer, Inc.
Tracking #: cy15-5142
Max Cost: \$157,444 per year
Term: 60 month request
FRC & COT Required: Yes

The Tennessee Department of Health (TDOH) is requesting a sole source approval for 60 month contract (3 year with 2 options to renew) for reagents kits for newborn screenings. Newborn screening for inborn errors of metabolism and other genetic disorders is required by DOH rules Chapter 1200-15-1.

The existing instrumentation currently being used at the testing sites in only compatible with Perkin Elmer reagent test kits. This equipment is expensive and procuring new equipment along with the additional test kits that are compatible with the equipment would come at a high cost to the department. Switching instrumentation would also result in the retraining of staff. It is more cost effective to purchase the kits that match existing instrumentation. The agency has provided the sole source letter from the vendor.

Sourcing Specialist recommends the approval of this sole source request.

3. Term of Contract - Multi-Year

Total Number of Years if all Options are Exercised: 5

Initial Contract Term three (3) years with two (2), one-year options to renew

Start Date: November 01, 2015
Initial End Date: October 31, 2018
Final End Date: October 31, 2020

The anticipated effective (start) date and expiration (end) dates of the contract are shown above. If award has not been made by the anticipated effective date, then the contract shall become effective upon the date the bid is accepted and contract awarded by the State, as indicated by the purchasing agent's signature on the contract notice of award (note: the change of effective date may not result in a change of the anticipated expiration date.)

RENEWAL OPTIONS: This contract may be renewed upon satisfactory completion of the initial contract term. The State reserves the right to execute up to the number of renewal options listed above annually under the same terms and conditions for a period not to exceed 12 months each by the State. It is mutually understood and agreed that the State's commitment is limited to a base term contract, not to exceed twelve (12) months, which is subject to renewal annually at the State's sole option.

It is understood and agreed that the State reserves the right to extend the term contract period resulting from this solicitation an additional period of time, not to exceed 180 days beyond the normal

4. Volume, Multi-Year

The total purchases of any individual item on the contract are not known. The Central Procurement Office has attempted to give an accurate estimate of probable purchases of each item from the current contract period and projected estimates for the new contract period. The Central Procurement Office does not guarantee that the state will buy any or all estimated amounts of any specified item or any total amount.

Estimated Funding New Contract Period \$157,444.00 annually

The vendor/contractor will only be paid for products or services rendered hereunder pursuant to purchase order releases issued to vendor/contractor from the state. The vendor/contractor is not entitled to be paid the maximum liability for any one year under the contract or any extensions of the contract for product or service not requested by the state. Maximum liability represents available funds for payment to vendor/contractor and does not guarantee payment of any such funds to the vendor/contractor per year under this contract unless the state requests product or service and vendor/contractor provides said product or service. The state is under no obligation to request product or service from vendor/contractor in any specific dollar amounts per year under this contract and the state may not request any product or service at all from vendor/contractor during the contract period.

5. Bids Requested on Standard State Specifications for Products and/or Services

Unit price bids are requested on products or services that equal or exceed (unless specifications limit the dimensions or brand(s)/model(s) of products to be bid). The absence of detailed specifications or the omission of detail description shall be recognized as meaning that only the best commercial practices are to prevail and that only first quality materials and workmanship are to be used. All interpretations of specifications shall be made from this statement. It is understood that the specifications or references to available specifications shall be sufficient to make the terms of such specifications binding on the vendor/contractor. Bidders must submit for bid evaluation applicable cuts, sketches, descriptive literature, and technical specifications covering the product offered, when applicable. Reference to literature submitted previously will not satisfy this requirement.

Bids requested on architect/engineer/designer specifications, if applicable. Bids are requested per architect/engineer/designer's specification attached. Bids are to be lump sum and/or unit prices as shown on the price sheet. Any errors or omissions in plans or specifications shall be resolved prior to submission of a bid. Submission of a bid shall constitute agreement and compliance with such specifications and plans. All shop drawings and product sheets required by specifications shall be submitted to architect/engineer/designer prior to fabrication and/or installation.

6. Bid Offer Expiration

Enter the expiration date of your bid offer in the space provided on this Invitation to Bid. A minimum period of thirty (30) days from the bid closing date is requested. The state shall have sixty (60) days to accept the bid if a minimum period is not stated.

7. Delivery Time (Days)

All items must be delivered within approximately 30 days after receipt of a purchase order (ARO).

8. Freight F.O.B. State Agency (Dock)

All quotations shall be F.O.B. destination. The term F.O.B. shall mean delivered and unloaded onto the receiving dock of the agency listed, with all charges for transportation and unloading prepaid by the vendor/contractor.

9. Firm Bid Price Period (Price Increase Allowed After Time Frame)

Prices quoted shall be firm for 365 days following the contract start date, except in the event an unexpected charge is imposed on the contractor holder by federal, state, county or city government entity during the term of the contract. The vendor/contractor may invoice the state for the imposed charge amount as long as it provides proof (invoice or statement, etc.) of the imposed charge to the user agency. The state shall also be advised of and receive the benefit of any price decrease in excess of five (5) percent automatically. The vendor/contractor holder must provide written price reduction information within ten (10) days of its effective date. Requests for price changes based on vendor/contractor's cost: Written requests for price changes based on vendor/contractor's actual cost for other than an imposed charge by federal, state, county, or city government entity after the firm price period shall be submitted in writing to the Central Procurement Office. Any increase shall be based on the vendor's/contractor's actual cost increase, may not constitute additional profit as shown in written cost documentation and must contain data establishing or supporting the general or industry wide nature of the change. At the option of the state, (1) request may be granted, (2) the contract may be canceled and awarded to the next low bidder, (3) the contract may be canceled and the commodity/service be re-advertised for award, or (4) continue the contract without change. The Central Procurement Office will accept or reject all such written requests within forty-five (45) working days of the date of receipt of complete and verified documentation. Approval of Price Increases: If approved, the Central Procurement Office will modify the contract to reflect the approved price increase and issue the revised contract. The vendor/ contractor shall honor all purchase orders dated prior to the approved price increase acceptance date at the original contract price. Approval of any price increase renews the firm price period. Price Increase Rejection: When the state rejects a request for a price increase, the vendor/ contractor will be notified in writing of the state's intention. If the contract is to be canceled, the vendor/contractor shall be notified of the cancellation date via certified mail. The vendor/ contractor will be required to honor all purchase orders that were prepared and dated prior to the date of the cancellation, if received by the vendor/contractor within a thirty (30) days following the date of the cancellation.

10. Bidder's Qualification

Bidders must, upon request of the state, furnish satisfactory evidence of their ability to furnish products or services in accordance with the terms and conditions and specifications. The Assistant Commissioner, Department of General Services, Central Procurement Office, reserves the right to make the final determination as to a bidder's ability to perform.

11. Inspection/Facilities

The Central Procurement Office may inspect the facilities of any bidder or may require additional information regarding a bidder's ability to perform the proposed contract. Bids may be rejected for lack of apparent ability to perform the proposed contract.

12. Substitution

Substitution of one or more goods, brands or manufacturers after the contract is awarded is expressly prohibited unless approved in writing by the State. The State may, at its discretion, require the contractor to provide one or more substitute goods of equal quality, subject to the approval by the State, for the same price and on the same delivery terms, if one or more goods for which the contract was awarded becomes unavailable to the contractor.

13. Inspection of Materials, Equipment and Products

All materials, equipment, and products are subject to inspection and testing. Items that do not meet specifications will be rejected. Failure to reject upon receipt does not relieve the vendor/contractor of liability. When subsequent tests after receipt are conducted and when such tests reveal damage or failure to meet specifications, the state may seek damages regardless of whether a part or all of the merchandise has been consumed.

14. Negotiations

The State may elect to negotiate by requesting revised Cost Proposals from apparently responsive and responsible respondents. However, the State reserves the right to award a contract on the basis of initial responses received. Therefore, each response should contain the respondent's best terms from a price and technical standpoint. The State reserves the right to conduct multiple negotiation rounds. If the State exercises its right to enter into negotiations, it may identify areas of a response that may require further clarification or areas in which it is apparent that there may have been miscommunications or misunderstandings as to the State's specifications and/or requirements. The State may seek to clarify those identified issues during negotiations. All responsive respondents will be given equivalent information with respect to cost negotiations. All cost negotiations will be documented for the procurement file. Additionally, the State may conduct target pricing and other price or service level negotiations. Target pricing may be based on considerations such as current pricing, market considerations, benchmarks, budget availability, or other method that does not reveal individual respondent pricing. During target price negotiations respondents are not obligated to meet or beat target prices, but will not be allowed to increase prices. All communications, clarifications and negotiations shall be conducted in a manner that supports fairness in response improvement. Note that each clarification sought by the State may be unique to an individual respondent.

15. Department of Revenue Registration

The contractor shall be registered with the Department of Revenue for the collection of Tennessee sales and use tax. This registration requirement is a material requirement of this Contract.

16. Bid Rejection

The Central Procurement Office reserves the right to reject any bid that contains prices for individual items or services that are inconsistent or unrealistic when compared to other prices in the same or other bids, if such action would be in the best interest of the state.

Errors: Each correction made by the bidder on the bid response must be initialed in ink by each correction. No corrections will be made in pencil. No bid or line item shall be altered or amended after the bid opening. In the case of errors in the extension price, the unit price will govern. Failure to comply with the above may be cause for rejection of part or the entire bid.

17. Single Award

A single contract for all line items will be awarded to the lowest responsive and responsible bidder whose bid meets the requirements and criteria set forth in the Invitation to Bid. Prices shall be calculated as follows: The bidders unit bid price shall be multiplied by the line item quantity to obtain the line item total. If more than one line item is included in the bid document, each line item total shall be added together for a total price for all line items bid. The bidder must bid all line items to be considered for an award.

18. Award Criteria

An award shall be made to the lowest responsive and responsible bidder considering the following:

- Ability to Perform
- Conformity to Specifications
- Lowest Composite Score

It shall be the responsibility of the "bill to" agency to make payment in accordance with the Prompt Payment Act of 1985. Any questions concerning payment should be addressed to the "bill to" agency and not to the Central Procurement Office.

21. Contract Cancellation

Termination for Convenience: The State may terminate this contract without cause. Said termination shall not be deemed a breach of contract by the State. The State shall give the vendor/contractor at least ninety (90) days written notice before the effective cancellation date.

The vendor/contractor shall be entitled to receive compensation for product(s) shipped or services satisfactorily completed as of the cancellation date, but in no event shall the state be liable to the vendor/contractor for compensation for any product(s) or services which have not been rendered.

Upon such termination, the vendor/contractor shall have no right to any actual general, special, incidental, consequential, or any other claims whatsoever of any description or amount.

Termination for Cause: If the vendor/contractor fails to fulfill its obligations under this contract in a timely or proper manner, or if the vendor/contractor violates any terms of this contract, the State shall have the right to immediately terminate the contract upon written notice of intent to cancel. Notwithstanding any use of approved subcontractors, the Contractor shall be the prime contractor and shall be responsible for all work provided.

23. Specifications Govern Over Brand Names Listed

The acceptable brands and model numbers are believed to meet all written specifications; however, if an error exists, the specifications will govern.
