The Honorable Ron Travis, Chairman
Fiscal Review Committee
636 Cordell Hull Building
Nashville, TN 37243

Dear Chairman Travis:

The Department of Correction (DOC) wishes to amend its current contract for delivery of evidence-based programming such as Pro-Social Life Skills, Victim Impact and Batterers Intervention to offenders under community supervision to extend the contract term for an additional year and to increase the maximum liability accordingly to allow for completion of the Request for Proposals (RFP) currently underway.

On January 23, 2019, the Department received notice of a protest regarding the RFP. On March 25, 2019, DOC received notification from Mike Perry, Chief Procurement Officer, that the RFP would have to be cancelled and re-released as a result of the protest. These services are vital to accomplishing the agency mission of operating safe and secure prisons and to provide effective community supervision in order to enhance public safety.

According to DOC Legal staff, there appears to be no litigation of actionable concern at this time against any business known as Spectrum Health Systems. The staff finds no records concerning allegations of fraudulent activity by this vendor.

An amendment request with all required supporting documentation to permit the amendment was submitted to the Commissioner of General Services and the Comptroller of the Treasury simultaneously with this submission to the Fiscal Review Committee.

We appreciate your consideration of this matter.

Sincerely,

Tony Parker
Commissioner

Mr. Hindman,

This letter is in response to the protest (“Protest”) by Spectrum Health Systems, Inc. (“Spectrum”) of the contract award for Request for Proposal No. 3290-31171 (the “RFP”). In its Protest, Spectrum contends, *inter alia*, that the Department of Corrections (“TDOC”) improperly accepted two cost proposals from the intended awardee, Geo Reentry Services, LLC, (“Geo”), in violation of the terms of the RFP and the rules, policies, and procedures of the Central Procurement Office (“CPO”). Spectrum also argues that it was improperly scored on its response to RFP Attachment 6.2, Section C.7, which required respondents to the RFP to “provide a transition plan detailing how the respondent would work with the State and the incumbent to bring about a smooth transition”. As the incumbent, Spectrum maintains that its response to Section C.7 was scored inconsistently by the evaluation committee (the “Committee”), as Spectrum did not need to provide a detailed response on how it would work with itself to transition to the new contract.

Pursuant to Tenn. Code Ann. § 12-3-514, as the Chief Procurement Officer, I have the authority to resolve Spectrum’s Protest. This letter will serve to notify you that after a review of the issues raised by Spectrum in its Protest, I find that TDOC accepted two cost proposals from Geo, in violation of the terms of the RFP, and applied an interpretation of the transition plan (the “Plan”) requirement in Attachment B, Section C.7, that was inconsistent with the plain language of the requirement. Accordingly, I find that the RFP must, in the best interest of the State, be cancelled and reprocured in accordance with the rules, policies, and procedures of the CPO. In reaching my decision, I considered the Protest, the responses of the parties to the Protest, and all the information provided by the parties to me at the informal hearing (“Protest Hearing”) held on March 8, 2019.

I. Factual Background.

A. The RFP.

The Tennessee Department of Corrections (“TDOC”) issued the RFP on May 29, 2018. The RFP sought proposals from suppliers to provide services (collectively “Services”) for Evidence-Based Programming For Community Supervision Offenders (“EBP”). Three suppliers submitted proposals for the RFP and Geo was determined to be the best evaluated respondent. Spectrum was the second best evaluated respondent and another respondent, Transition House, Inc. (“Transition”), was the third best evaluated respondent. TDOC issued the notice of intent to award on January 14, 2018. Spectrum timely protested the intent to award the RFP to Geo and provided the requisite protest bond of \$597,793.

II. Issues Raised.

Spectrum claims in its Protest that the contract award should be reversed and awarded to Spectrum or cancelled based upon the following grounds:

- (1) Geo submitted an alternate cost proposal, in violation of Section 3.3.6 of the RFP, and should have been deemed nonresponsive.

(2) TDOC should have deemed Transition as nonresponsible because it only scored 35.55 points out of a possible 70 points on its technical score. Spectrum claims that, given Transition's technical score, TDOC should have been deemed nonresponsible under Tenn. Code Ann. § 12-3-201(19), as Transition did not have the capacity to fully perform the contract requirements in all respects.

(3) TDOC failed to score Spectrum's Transition Plan (the "Plan") correctly, as Spectrum was penalized for failing to include a detailed transition plan on how the respondent would work with the incumbent to "bring about a smooth transition". RFP Attachment 6.2, Section C.7. As Spectrum has been the incumbent since 2015, it only included a brief description of how it would continue to work with TDOC, as no further details were needed.

(4) TDOC failed to consider Geo's Conflict of Interest issues, as Geo failed to disclose that Geo's Executive Vice President is Derrick Schofield, who is the former Commissioner of TDOC.

(5) In violation of the RFP, Geo failed to disclose that the Chief Executive Officer of the subcontractor that it proposes to use for certain technology-based Services has been involved in criminal activity and named in investigations related to public contracts.

III. Decision.

The first point raised by Spectrum concerns a clarification from Evans to both Geo and Spectrum on whether their respective cost proposals were based on a "per offender/per month cost or a per offender/per year cost". In addition, Evans further requested that "if the [cost proposals] submitted are based on a per offender/per month [cost], please submit an [sic] revised cost proposal via email (scanned and signed) to reflect a cost per offender/per year proposal for both Traditional Delivery and Technology-Based Delivery". Email from Ariel Evans, TDOC, to Ann Schlarb, Geo Reentry Services, Inc., (November 16, 2018, 03:44 P.M. CST); Email from Ariel Evans, TDOC, to Cindy Buraczynski, Spectrum, (November 16, 2018, 4:33 P.M. CST). Spectrum responded with an email that stated that it had recalculated its monthly costs on an annual basis but that its annual costs had not changed "but were simply re-calculated from monthly to annual figures". Email from Kurt Isaacson, Spectrum, to Ariel Evans, TDOC (November 19, 2018 1:15 P.M. CST).

In its response to Evans for a resubmission of its cost proposal, Geo responded that its pricing was calculated on a per offender/per year cost. Email from Kevin Rink, Geo, to Ariel Evans, TDOC (November 20, 2018 10:30 A.M. CST). However, Geo went on to state that "we wish to strongly emphasize our belief that significant savings could be realized during negotiations" and that Geo could reduce its costs by as much as 90% if Geo was not required to provide 29 full-time employees for both the traditional and technology-based services". Email from Kevin Rink, Geo, to Ariel Evans, TDOC (November 20, 2018 10:30 A.M. CST). Evans responded that the traditional-based solution is "separate and apart" from the traditional-based delivery and that if Geo's response "deems a change to your cost proposal for the delivery of a tech-based solution, please submit a revised cost proposal. . .to reflect the new costs for the per offender/per year delivery of a tech-based solution". Email from Ariel Evans, TDOC, to Kevin Rink, Geo, (November 20, 2018, 10:30 A.M. CST).

On November 21, 2018, Geo submitted two cost proposals to Evans that provided: (1) a cost proposal based on a "Stand-Alone" solution, with "staffing for support and delivery of [a] Technology-Based

Services”; and (2) an “[i]ntegrated” solution—to be provided in addition to a base Traditional Programming Solution”. Email from Kevin Rink, Geo, to Evans, TDOC (November 21, 2018 12:00 P.M. CST). Geo confirmed that it was submitting two costs proposals by distinguishing the two proposals as “either scenario”. Geo goes on further to state that “[b]y entering into contract negotiations, the State can explore pricing models that will reduce costs and support the agency’s goal of increasing access to services”. *Id.* Two days later, the CPO, on behalf of TDOC, stated that Geo could not submit two cost proposals but did permit Geo to submit one of the two cost proposals it had previously submitted. Email from Katherine Weaver, CPO, to Kevin Rink, Geo, (November 23, 2018 1:13 P.M. CST).

As Spectrum correctly noted in its Protest, Section 3.3.6 of the RFP provides that:

A Respondent must not submit more than one Technical Response and one Cost Proposal in response to this RFP, except as expressly requested by the State in this RFP. If a Respondent submits more than one Technical Response or more than one Cost Proposal, the State will deem all of the responses non-responsive and reject them.

Section 3.1.2.1 of the RFP provides that “a [r]espondent must only record the proposed cost exactly as required by the RFP Attachment 6.3., Cost Proposal & Scoring Guide and must NOT record any other rates, amounts, or information” (emphasis in original). Tenn. Comp. R. & Regs., ch. 0690-03-01.05(2)(a)1.(vi)(III) requires that all proposals made in response to an RFP must be evaluated “based on criteria set forth in the RFP. . .”. Accordingly, the submission of two cost proposals by Geo was a violation of Section 3.3.6 of the RFP, as evidenced by the different pricing and cost strategies that were explicitly acknowledged by Geo in its November 21, 2018, email from Risk to Evans. Moreover, the State erred by permitting Geo to choose one of the two cost proposals that it had submitted and deeming that proposal as responsive, as Section 3.3.6 required the State to reject Geo’s cost proposal submissions as non-responsive. As Spectrum noted in its briefs and at the Protest Hearing, Tennessee courts have long upheld that public procurements must be conducted fairly and respondents must compete for public contracts on the same terms and conditions in order to preserve the fairness and integrity of the procurement process. *See, e.g., State ex. rel. Leech v. Wright*, 622 S.W.2d 807, 815 (Tenn. 1981) (*citing Sterrett v. Bell*, 240 S.W.2d 516, 520 (Tex. Civ. App. 1951)); *Computer Shoppe, Inc. v. State*, 780 S.W.2d 729, 737 (Tenn. Ct. App. 1989). Given the clear prohibition in Section 3.3.6 of the RFP on the submission of more than one cost proposal in response to the RFP, and in light of the well-established caselaw requiring fairness and equal treatment for responses to public procurements, I find that Geo’s cost proposal was impermissibly deemed responsive despite the clear language of the RFP and that the award of the contract to Geo must be vacated.

Another issue that Spectrum raised in its Protest was the scoring of its response to the RFP’s requirements for the Plan, as set forth in Attachment B, Section C.7 of the RFP. Ordinarily, a mere showing of a particular score or a variance in scoring by evaluators of responses to a solicitation is not an adequate ground to overturn a contract award, as agency decisions are “entitled to a presumption of regularity” and should not be overturned “unless record evidence raises serious questions as to the rationality of the contracting officer’s [decision]”. *Four Points by Sheraton v. United States*, 63 Fed. Cl. 341 (2005) (*citing Information Tech. & Applications Corp. v. United States*, 316 F.3d 1312, 1323 n.2 (Fed. Cir. 2003)).

However, in this case, a question exists as to whether the evaluation of the Plan as described in the RFP was properly evaluated, as TDOC’s response to the Protest indicates that it applied an

interpretation of the Plan that appears to be at odds with the plain language of the RFP. Section C.7, Attachment B, required the respondents to provide “a transition plan detailing how the respondent would work with the State and the incumbent to bring about a smooth transition”. As the incumbent, Spectrum provided a brief statement indicating that it would not need a transition plan in the event that it was awarded the contract and that it would cooperate with “its successor in the turnover of services should another vendor be awarded this contract”. Spectrum Technical Response at 54. Spectrum’s original scores for its response to Section C.7 of the RFP’s Technical Proposal were scored by the four evaluators of the RFP as 1, 2, 4, and 4, on a scale of one to 5, with 5 being the highest possible score. TDOC subsequently held a meeting of the evaluation committee and one of the evaluators lowered his/her scores from a 2 to a 1, and two of the other evaluators lowered their scores from 4 to 2. TDOC explained in its response to the Protest that the scores were lowered because the “unified understanding” of the evaluation committee was that Section C.7 required respondents to detail “how they would implement the new services required under the new contract” and not just how a transition from the incumbent to a new contractor would be accomplished. TDOC Response at 3.

While meetings of evaluation committee members are permissible under the CPO’s Procurement Procedures Manual (the “Manual”) and evaluators are permitted, but not required, to change their scores if the individual evaluators choose to do so, the scoring of a particular requirement must conform to the terms of the requirement itself and the information that forms the basis of the scores respondents receive must be rationally related to that information. Manual at 5.11.3. – 4. As set forth in Tenn. Code Ann. § 12-3-502(e), “[o]nly criteria or factors set forth in the solicitation may be used in evaluating a response”. See also Tenn. Comp. R. & Regs., ch. 0690-03-01-.05(2)(a)(1)(vi)(I); CPO Policy No. 2013-002, Section 19.3; and the Manual at 5.11.7. TDOC’s response indicates that it was seeking a response from the respondents on the use of the new technology-based services that were added to the RFP but § C.7 only requires a response on the respondents’ Plans for working with the State and the incumbent to “bring about a smooth transition”. The rules, policies, and procedures, as well as the caselaw in Tennessee regarding procurements, require agencies to only evaluate the criteria stated in the procurement. The intended meaning by TDOC of the § C.7 requirement is not stated in the RFP and, as the incumbent, Spectrum could provide no other response to the question other than it would continue to work with TDOC in the event that it was awarded the contract. Consequently, TDOC’s evaluators erred in the scoring of Spectrum’s Plan. TDOC’s stated intent would have the unintended consequence of punishing incumbency rather than treating all respondents equally.

Regarding the other two issues that Spectrum raises in its Protest with respect to the responsibility of Transition to perform the contract and the allegations of a conflict of interest by Geo due to the fact that the former Commissioner of TDOC holds a position as Executive Vice President of Geo, there is no evidence in the record that a minimum technical score was required for respondents to the RFP to be evaluated or of any specific organizational conflict of interest by Geo that would warrant Geo’s disqualification as a respondent. Accordingly, due to the lack of evidence, I decline to address these issues further.

It is evident that the errors described above: (1) created uncertainty and confusion among the respondents on what was required in the cost proposals; (2) that the State improperly allowed Geo to submit two cost proposals in violation of the terms of the RFP; and (3) that TDOC’s intent on the requirements and details needed for a transition plan to the new contract effectively punished incumbency. As a result, I find that this procurement is fatally flawed and that an award to either

Spectrum or to Geo would result in manifest unfairness to all the respondents to the RFP. Therefore, for the reasons stated above, I am setting aside the award of the contract to Geo and I remand the RFP to TDOC and direct TDOC to re-issue the RFP in a manner consistent with the laws, rules, policies, and procedures of the RFP.

My authority to cancel a solicitation is conferred upon me by statute and by well-established case law. Tenn. Code Ann. § 12-3-502(b) provides that the Chief Procurement Officer may approve the rejection of all responses for a solicitation for a number of reasons, including an error in the solicitation, cessation of need, or any other reason determined to be in the interest of the State. Further, Tenn. Code Ann. § 12-3-502(c) provides that submission of a response “shall not create rights, interests, or claims of entitlement in any respondent, including the lowest apparent respondent in terms of cost.”. This authority is also reiterated in the RFP Template at 4.3.1, “State Right of Rejection.” The same power to uphold, reverse or modify my decision is granted to the Protest Committee, as Tenn. Code Ann. § 4-56-103 provides that it may act upon any appeal of the Chief Procurement Officer’s protest and in doing so, has wide latitude in the scope of its decision. This latitude is outlined in Tenn. Code Ann. § 12-3-514(l), which states that appeals from a decision of the Protest Committee are only limited to inquiries into whether it “exceeded its jurisdiction, followed an unlawful procedure, or acted illegally, fraudulently or arbitrarily without material evidence to support its action.”

Moreover, the authority of the state to cancel a solicitation was affirmed in *Computer Shoppe, Inc. v. State*, 780 S.W.2d 729, 734 (Tenn. Ct. App. 1989). In that case, the Court of Appeals upheld the right of the State to reject all responses and to cancel a solicitation for “just cause” under certain statutory circumstances. *Id.* Similarly, in *Metro. Air Research Testing Auth., Inc., v. Metro. Gov’t of Nashville & Davidson County.*, 842 S.W.2d 611, 619 (Tenn. Ct. App. 1992), the court held that public procurement authorities have broad discretion with regard to accepting responses to solicitations and stated that “in the absence of fraud, corruption, or palpable abuse of discretion, the courts will ordinarily not interfere with governmental procurement decisions”.

IV. Final Determination

This is my final determination. If you do not agree with my decision, you have the statutory right under Tenn. Code Ann. § 12-3-514(h) to request a hearing before the Protest Committee to review my determination. Your request for a hearing before the Protest Committee must be made in writing within seven (7) calendar days of your receipt of this letter.

The Honorable Ken Yager, Chairman
Fiscal Review Committee

Nashville, TN 37243

Dear Chairman Yager:

The Department of Correction (DOC) wishes to amend its current contract for delivery of evidence-based programming such as Pro-Social Life Skills, Victim Impact and Batterers Intervention to offenders under community supervision to extend the contract term for an additional six (6) months and to increase the maximum liability accordingly to allow for completion of the Request for Proposals (RFP) currently underway. These services are vital to accomplishing the agency mission of operating safe and secure prisons and to provide effective community supervision in order to enhance public safety.

According to DOC Legal staff, there appears to be no litigation of actionable concern at this time against any business known as Spectrum Health Systems. Staff finds no records concerning allegations of fraudulent activity by this vendor.

An amendment request with all required supporting documentation to permit the amendment was submitted to the Commissioner of General Services and the Comptroller of the Treasury simultaneously with this submission to the Fiscal Review Committee.

We appreciate your consideration of this matter.

Sincerely,

*What were the projected costs of the service for the entire term of the contract prior to contract award? How was this cost determined?		TDOC consulted with vendor to determine the needed services and the number of vendor staff to cover the locations where programming was needed in the various community supervision districts. A price was then determined.	
*List number of other potential vendors who could provide this good or service; efforts to identify other competitive procurement alternatives; and the reason(s) a sole-source contract is in the best interest of the State.		In order for the programming currently being offered to continue uninterrupted and to permit the successful completion of the Request for Proposals (RFP) currently underway and subsequent contract award, an amendment permitting the continued delivery of programming by the same vendor is necessary. The Department is in the process of issuing an RFP for these services and the extension will provide time to complete the RFP process.

10. Justification	The Department submitted the required documentation to the Fiscal Review Committee, the Central Procurement Office and the Comptroller of the Treasury on September 26, 2018 to extend the current contract an additional six months through June 30, 2019, to allow completion of the RFP (and resulting replacement contract) currently underway. The Committee met and recommended approval of the amendment on November 28, 2018. Routing of the amendment for signature by the vendor and necessary reviewers/approvers at the Department during the holiday season has resulted in a missed effective date of January 1, 2019. In the meantime, the Department has discovered a miscalculation error that will result in having to go back to the Committee to add additional funds to cover the six-month extension. As it is imperative that the Department does not have a lapse in these necessary services that are vital to accomplishing the agency mission of operating safe and secure prisons and providing effective community supervision in order to enhance public safety. We are respectfully requesting an exception to the 30-day rule and ask that the effective date remain January 1, 2019.

The Honorable Ken Yager, Chairman
Fiscal Review Committee
G-19 War Memorial Building
Nashville, TN 37243

Dear Chairman Yager:

The Department of Correction (DOC) wishes to amend its current contract for delivery of evidence-based programming such as Pro-Social Life Skills, Victim Impact, and Batterers Intervention to offenders under community supervision to extend the contract term for an additional year and to increase the maximum liability accordingly. These services are vital to accomplishing the agency's mission of operating safe and secure prisons and providing effective community supervision in order to enhance public safety.

According to DOC Legal staff, there appears to be no litigation of actionable concern at this time against any business known as Spectrum Health Systems. The staff finds no records concerning allegations of fraudulent activity by this vendor.

An amendment request with all required supporting documentation to permit this amendment was submitted to the Commissioner of General Services and the Comptroller of the Treasury simultaneously with this submission to the Fiscal Review Committee.

We appreciate your consideration of this matter.

Sincerely,

A handwritten signature in blue ink, appearing to read "Tony Parker".

The Honorable Mark White, Chairman
Fiscal Review Committee

Dear Chairman White

SUBJECT: TDOC REQUEST 32901-31255

The Department of Correction wishes to extend the term of its contract for delivery of evidence-based programming such as Pro-Social Live Skills, victim Impact and Batterers Intervention to offenders under community supervision for an additional 20 months beyond the contract's original term. The original contract term began May 1, 2015, and without amendment will end April 30.

The uninterrupted delivery of evidence-based programming such as Pro-Social Live Skills, victim Impact and Batterers Intervention to offenders under community supervision is vital to accomplishing the agency mission of operating safe and secure prisons and providing effective community supervision in order to enhance public safety.

In order to continue the delivery of evidence-based programming, the department is seeking permission from the Fiscal Review Committee (because the total contract term exceeds one year AND the maximum liability exceeds \$250,000), the Central Procurement Office and the Comptroller of the Treasury to add term extension language to permit a contract extension, extend the contract term an additional 20 months, add 7 new locations for programming delivery, and increase the maximum liability accordingly.

The seven new positions are a component of the Public Safety Act of 2016. The 7 new positions will be housed in Community Supervision Resource Centers. Offenders will receive assistance to address substance abuse issues with the programming, treatment and case management. The programming is among the services which address barriers to offenders becoming productive members of the community.

An amendment request and a rule exception request to permit extension of the contract years is being submitted to the Commissioner of General Services and the Comptroller of the Treasury simultaneously with this submission to the Fiscal Review Committee.

We appreciate your consideration of this matter.

Sincerely,

Derrick D. Schofield

*What were the projected costs of the service for the entire term of the contract prior to contract award? How was this cost determined? <p>18. Explanation of Need for or requirement placed on the State to acquire the goods or services</p>	<p>Following the reassignment of probation and parole supervision from the former Board of Probation and Parole to the Tennessee Department of Correction in 2012, efforts continue agency-wide to standardize programming provided to offenders whether they are incarcerated in a prison or under agency supervision in the community.</p> <p>Although agency staff received in-house training in evidence based curricula prior to 2012, the number of staff available to provide this training to new staff and to offenders has diminished due to attrition and reallocation of officers due to caseload demands. Limited ongoing training opportunities available, and diminished facilitator capacity has resulted in diminished program delivery capacity.</p> <p>Spectrum currently provides services to incarcerated offenders in four TDOC facilities. Spectrum has the necessary expertise and infrastructure to provide the programming with minimal start-up time and cost.</p> <p>Evidence-based programming has been proven to reduce recidivism (offenders returning to incarceration due to new offenses) and to help offenders successfully complete their terms of supervision and their complete reintegration into society.</p> <p>Spectrum has been providing substance abuse and mental health treatment since 1969. Spectrum was responsible for establishing one of the first therapeutic communities in the country for the treatment of drug abuse. Over the past forty-five years, Spectrum has become a leading addiction treatment provider, providing a continuum of Commission on Accreditation of Rehabilitation Facilities (CARF) accredited addiction and mental health treatment services.</p> <p>Spectrum's Correctional Treatment Division was established in 1993 to provide specialized treatment to criminal offenders with a history of chronic substance abuse and criminal behavior.</p>

Request Tracking #	32901-31255
19. Proposed contract impact on current State operations	<p>It is in the State's best interest to permit Spectrum, a contractor already providing programming to incarcerated offenders to provide comparable programming to offenders who are still under agency supervision but out in the community. Spectrum is already familiar with State program delivery objectives and constraints rather than delaying offenders receiving necessary programming and treatment, which are part of ongoing agency initiatives for the amount of time that a solicitation release and procurement process would take.</p> <p>Although former BOPP staff underwent train the trainer training for the curriculum before the reassignment, the number of offenders needing the programming outweighs the agency capacity to provide the needed programming in a timely fashion.</p> <p>Spectrum also has a unique state-wide presence that is required to deliver these educational and treatment services in both urban and rural communities across Tennessee.</p> <p>Having the programming component delivered by a contractor instead of agency staff removes the programming burden from agency staff, allowing probation and parole officers to focus completely on offender supervision and managing their caseloads more effectively.</p>
20. Justification – Specifically explain why the goods or services should be acquired through the procurement method or contract type selected.	TDOC will be issuing an RFP for offender programming and treatment services in early 2015 with an anticipated contract start date of July 1, 2015. In order to provide programming for offenders until that time, a 12-month contract is in the best interest of the State.

The goods or services provided under this Contract shall conform to the terms and conditions of this Contract throughout the Warranty Period. Any nonconformance of the goods or services to the terms and conditions of this Contract shall constitute a "Defect" and shall be considered "Defective." Contractor represents and warrants that the State is authorized to possess and use all equipment, materials, software, and deliverables provided under this Contract.

Contractor represents and warrants that all goods or services provided under this Contract shall be provided in a timely and professional manner, by qualified and skilled individuals, and in conformity with standards generally accepted in Contractor's industry.

If Contractor fails to provide the goods or services as warranted, then Contractor will re-provide the goods or services at no additional charge. If Contractor is unable or unwilling to re-provide the goods or services as warranted, then the State shall be entitled to recover the fees paid to Contractor for the Defective goods or services. Any exercise of the State's rights under this Section shall not prejudice the State's rights to seek any other remedies available under this Contract or applicable law.

2. Contract section B is deleted in its entirety and replaced with the following:

B. TERM OF CONTRACT:

B.1. This Contract shall be effective on May 1, 2015 ("Effective Date") and extend for a period of thirty-two (32) months after the Effective Date ("Term"). The State shall have no obligation for goods or services provided by the Contractor prior to the Effective Date.

B.2. Renewal Options. This Contract may be renewed upon satisfactory completion of the Term. The State reserves the right to execute up to three (3) renewal options under the same terms and conditions for a period not to exceed twelve (12) months each by the State, at the State's sole option. In no event, however, shall the maximum Term, including all renewals or extensions, exceed a total of sixty (60) months.

3. Contract section C.1. is deleted in its entirety and replaced with the following:

C.1. Maximum Liability. In no event shall the maximum liability of the State under this Contract exceed Three Million, Two Hundred Sixty Six Thousand, Four Hundred Twenty-Six Dollars (\$3,266,426.00) ("Maximum Liability"). This Contract does not grant the Contractor any exclusive rights. The State does not guarantee that it will buy any minimum quantity of goods or services under this Contract. Subject to the terms and conditions of this Contract, the Contractor will only

be paid for goods or services provided under this Contract after a purchase order is issued to Contractor by the State or as otherwise specified by this Contract.

*If further extended by Amendment

5. The following is added as Contract section D.31.

D.31. **Insurance.** Contractor shall provide the State a certificate of insurance ("COI") evidencing the coverages and amounts specified below. The COI shall be provided ten (10) business days prior to the Effective Date and again upon renewal or replacement of coverages required by this Contract. If insurance expires during the Term, the State must receive a new COI at least thirty (30) calendar days prior to the insurance's expiration date. If the Contractor loses insurance coverage, does not renew coverage, or for any reason becomes uninsured during the Term, the Contractor shall notify the State immediately.

The COI shall be on a form approved by the Tennessee Department of Commerce and Insurance ("TDCI") and signed by an authorized representative of the insurer. The COI shall list each insurer's national association of insurance commissioners (also known as NAIC) number or federal employer identification number and list the State of Tennessee, Risk Manager, 312 Rosa L. Parks Ave., 3rd floor Central Procurement Office, Nashville, TN 37243 in the certificate holder section. At any time, the State may require the Contractor to provide a valid COI detailing coverage description; insurance company; policy number; exceptions; exclusions; policy effective date; policy expiration date; limits of liability; and the name and address of insured. The Contractor's failure to maintain or submit evidence of insurance coverage is considered a material breach of this Contract.

If the Contractor desires to self-insure, then a COI will not be required to prove coverage. In place of the COI, the Contractor must provide a certificate of self-insurance or a letter on the Contractor's letterhead detailing its coverage, liability policy amounts, and proof of funds to reasonably cover such expenses. Compliance with Tenn. Code Ann. § 50-6-405 and the rules of the TDCI is required for the Contractor to self-insure workers' compensation.

All insurance companies must be: (a) acceptable to the State; (b) authorized by the TDCI to transact business in the State of Tennessee; and (c) rated A- VII or better by A. M. Best. The Contractor shall provide the State evidence that all subcontractors maintain the required insurance or that the subcontractors are included under the Contractor's policy.

The Contractor agrees to name the State as an additional insured on any insurance policies with the exception of workers' compensation (employer liability) and professional liability (errors and omissions) ("Professional Liability") insurance. Also, all policies shall contain an endorsement for a waiver of subrogation in favor of the State.

The deductible and any premiums are the Contractor's sole responsibility. Any deductible over fifty thousand dollars (\$50,000) must be approved by the State. The Contractor agrees that the insurance requirements specified in this Section do not reduce any liability the Contractor has assumed under this Contract including any indemnification or hold harmless requirements. The State agrees that it shall give written notice to the Contractor as soon as practicable after the State becomes aware of any claim asserted or made against the State, but in no event later than thirty (30) calendar days after the State becomes aware of such claim. The failure of the State to give notice shall only relieve the Contractor of its obligations under this Section to the extent that the Contractor can demonstrate actual prejudice arising from the failure to give notice. This Section shall not grant the Contractor or its insurer, through its attorneys, the right to represent the State in any legal matter, as the right to represent the State is governed by Tenn. Code Ann. § 8-6-106.

All coverage required shall be on a primary basis and noncontributory with any other insurance coverage or self-insurance carried by the State. The State reserves the right to amend or require additional endorsements, types of coverage, and higher or lower limits of coverage depending on the nature of the work. Purchases or contracts involving any hazardous activity or equipment, tenant, concessionaire and lease agreements, alcohol sales, cyber-liability risks, environmental risks, special motorized equipment, or property may require customized insurance requirements (e.g. umbrella liability insurance) in addition to the general requirements listed below.

The Contractor shall obtain and maintain, at a minimum, the following insurance coverages and policy limits.

- a. Commercial General Liability Insurance
 - 1) The Contractor shall maintain commercial general liability insurance, which shall be written on an Insurance Services Office, Inc. (also known as ISO) occurrence form (or a substitute form providing equivalent coverage) and shall cover liability arising from property damage, premises/operations, independent contractors, contractual liability, completed operations/products, personal and advertising injury, and liability assumed under an insured contract (including the tort liability of another assumed in a business contract).
 - 2) The Contractor shall maintain bodily injury/property damage with a combined single limit not less than one million dollars (\$1,000,000) per occurrence and two million dollars (\$2,000,000) aggregate for bodily injury and property damage, including products and completed operations coverage with an aggregate limit of at least two million dollars (\$2,000,000).
- b. Workers' Compensation and Employer Liability Insurance
 - 1) For Contractors statutorily required to carry workers' compensation and employer liability insurance, the Contractor shall maintain:
 - i. Workers' compensation and employer liability insurance in the amounts required by appropriate state statutes; or
 - ii. In an amount not less than one million dollars (\$1,000,000) including employer liability of one million dollars (\$1,000,000) per accident for bodily injury by accident, one million dollars (\$1,000,000) policy limit by disease, and one million dollars (\$1,000,000) per employee for bodily injury by disease.

2) If the Contractor certifies that it is exempt from the requirements of Tenn. Code Ann. §§ 50-6-101 – 103, then the Contractor shall furnish written proof of such exemption for one or more of the following reasons:

- i. The Contractor employees fewer than five (5) employees;
- ii. The Contractor is a sole proprietor;
- iii. The Contractor is in the construction business or trades with no employees;
- iv. The Contractor is in the coal mining industry with no employees;
- v. The Contractor is a state or local government; or

The Contractor self-insures its workers' compensation and is in compliance with the TDCI rules and Tenn. Code Ann. § 50-6-405.

c. Automobile Liability Insurance

- i. The Contractor shall maintain automobile liability insurance which shall cover liability arising out of any automobile (including owned, leased, hired, and non-owned automobiles).
- ii. The Contractor shall maintain bodily injury/property damage with a limit not less than one million dollars (\$1,000,000) per occurrence or combined single limit.

d. Professional Liability Insurance

- i. Professional liability insurance shall be written on an occurrence basis. This coverage may be written on a claims-made basis but must include an extended reporting period or "tail coverage" of at least two (2) years after the Term;
- ii. Any professional liability insurance policy shall have a limit not less than one million dollars (\$1,000,000) per claim and two million dollars (\$2,000,000) in the aggregate; and
- iii. If the Contract involves the provision of services by medical professionals, a policy limit not less than two million (\$2,000,000) per claim and three million dollars (\$3,000,000) in the aggregate for medical malpractice insurance.

6. The following is added as Contract section E.10.

E.10. Additional lines, items, or options. At its sole discretion, the State may make written requests to the Contractor to add lines, items, or options that are needed and within the Scope but were not included in the original Contract. Such lines, items, or options will be added to the Contract through a Memorandum of Understanding ("MOU"), not an amendment.

- a. After the Contractor receives a written request to add lines, items, or options, the Contractor shall have ten (10) business days to respond with a written proposal. The Contractor's written proposal shall include:
 - (1) The effect, if any, of adding the lines, items, or options on the other goods or services required under the Contract;
 - (2) Any pricing related to the new lines, items, or options;
 - (3) The expected effective date for the availability of the new lines, items, or options; and
 - (4) Any additional information requested by the State.

- b. The State may negotiate the terms of the Contractor's proposal by requesting revisions to the proposal.
- c. To indicate acceptance of a proposal, the State will sign it. The signed proposal shall constitute a MOU between the Parties, and the lines, items, or options shall be incorporated into the Contract as if set forth verbatim.
- d. Only after a MOU has been executed shall the Contractor perform or deliver the new lines, items, or options.

7. Contract Attachment Two is deleted in its entirety and replaced with the new attachment Two attached hereto.

Required Approvals. The State is not bound by this Amendment until it is signed by the contract parties and approved by appropriate officials in accordance with applicable Tennessee laws and regulations (depending upon the specifics of this contract, said officials may include, but are not limited to, the Commissioner of Finance and Administration, the Commissioner of Human Resources, and the Comptroller of the Treasury).

Amendment Effective Date. The revisions set forth herein shall be effective May 1, 2016. All other terms and conditions of this Contract not expressly amended herein shall remain in full force and effect.

SUBJECT: Special Contract Request #32901-31255 for a Non-Competitive Contract between the Tennessee Department of Correction (TDOC), and Spectrum Health Systems, Inc.

I. RECOMMENDATION:

I, Lorraine Rea, recommend the approval of this non-competitive Special Contract Request to contract with Spectrum Health Systems, Inc. for the provision of evidence-based programming for offenders under probation and parole supervision.

II. ANALYSIS:

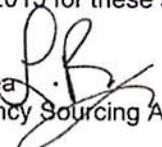

The evidence-based programming services consist of:

- 25 week Cognitive-Behavioral programming;
- 13 week You Have the Power Victim Impact; and,
- 26 week Batters Intervention programming.

Evidence-based programming has been proven to reduce recidivism (offenders returning to incarceration due to new offenses) and to help offenders successfully complete their terms of reintegration in to society.

Spectrum Health Systems, Inc. has been providing substance abuse and mental health treatment since 1969. Spectrum's Correctional Treatment Division was established in 1993 to provide specialized treatment to criminal offenders. It is in the State's best interest to permit Spectrum, a contractor already providing programming to incarcerated offenders, and that is already familiar with the State program deliver objectives and constraints, to provide comparable programming to offenders who are still under agency supervision but out in the community, rather than delaying offenders receiving necessary programming and treatment during the amount of time it takes for the solicitation process. The TDOC anticipates an RFP to be issued with a contract in place July 1, 2015 for these services. Therefore, this 12-month contract is in the best interest to the State.

Contractor warrants that it will cooperate with the State, including cooperation and coordination with State privacy officials and other compliance officers required by the Privacy Rules, in the course of performance of the Contract so that both parties will be in compliance with the Privacy Rules.
 - c. The State and the Contractor will sign documents, including but not limited to business associate agreements, as required by the Privacy Rules and that are reasonably necessary to keep the State and Contractor in compliance with the Privacy Rules. This provision shall not apply if information received or delivered by the parties under this Contract is NOT "protected health information" as defined by the Privacy Rules, or if the Privacy Rules permit the parties to receive or deliver the information without entering into a business associate agreement or signing another document.
 - d. The Contractor will indemnify the State and hold it harmless for any violation by the Contractor or its subcontractors of the Privacy Rules. This includes the costs of responding to a breach of protected health information, the costs of responding to a government enforcement action related to the breach, and any fines, penalties, or damages paid by the State because of the violation.

- D.21. Tennessee Consolidated Retirement System. Subject to statutory exceptions contained in Tenn. Code Ann. §§ 8-36-801, *et seq.*, the law governing the Tennessee Consolidated Retirement System ("TCRS"), provides that if a retired member of TCRS, or of any superseded system administered by TCRS, or of any local retirement fund established under Tenn. Code Ann. §§ 8-35-101, *et seq.*, accepts State employment, the member's retirement allowance is suspended during the period of the employment. Accordingly and notwithstanding any provision of this Contract to the contrary, the Contractor agrees that if it is later determined that the true nature of the working relationship between the Contractor and the State under this Contract is that of "employee/employer" and not that of an independent contractor, the Contractor, if a retired member of TCRS, may be required to repay to TCRS the amount of retirement benefits the Contractor received from TCRS during the Term.
- D.22. Tennessee Department of Revenue Registration. The Contractor shall comply with all applicable registration requirements contained in Tenn. Code Ann. §§ 67-6-601 – 608. Compliance with applicable registration requirements is a material requirement of this Contract.
- D.23. Debarment and Suspension. The Contractor certifies, to the best of its knowledge and belief, that it, its current and future principals, its current and future subcontractors and their principals:
- a. are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any federal or state department or agency;
 - b. have not within a three (3) year period preceding this Contract been convicted of, or had a civil judgment rendered against them from commission of fraud, or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (federal, state, or local) transaction or grant under a public transaction; violation of federal or state antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification, or destruction of records, making false statements, or receiving stolen property;
 - c. are not presently indicted or otherwise criminally or civilly charged by a government entity (federal, state, or local) with commission of any of the offenses detailed in section b. of this certification; and
 - d. have not within a three (3) year period preceding this Contract had one or more public transactions (federal, state, or local) terminated for cause or default.

The Contractor shall provide immediate written notice to the State if at any time it learns that there was an earlier failure to disclose information or that due to changed circumstances, its principals or the principals of its subcontractors are excluded or disqualified.

- D.24. Force Majeure. "Force Majeure Event" means fire, flood, earthquake, elements of nature or acts of God, wars, riots, civil disorders, rebellions or revolutions, acts of terrorism or any other similar cause beyond the reasonable control of the Party except to the extent that the non-performing Party is at fault in failing to prevent or causing the default or delay, and provided that the default or delay cannot reasonably be circumvented by the non-performing Party through the use of alternate sources, workaround plans or other means. A strike, lockout or labor dispute shall not excuse either Party from its obligations under this Contract. Except as set forth in this Section, any failure or delay by a Party in the performance of its obligations under this Contract arising from a Force Majeure Event is not a default under this Contract or grounds for termination. The non-performing Party will be excused from performing those obligations directly affected by the Force Majeure Event, and only for as long as the Force Majeure Event continues, provided that the Party continues to use diligent, good faith efforts to resume performance without delay. The occurrence of a Force Majeure Event affecting Contractor's representatives, suppliers, subcontractors, customers or business apart from this Contract is not a Force Majeure Event under this Contract. Contractor will promptly notify the State of any delay caused by a Force Majeure Event (to be confirmed in a written notice to the State within one (1) day of the inception of the delay) that a Force Majeure Event has occurred, and will describe in reasonable detail the nature of the Force Majeure Event. If any Force Majeure Event results in a delay in Contractor's

performance longer than forty-eight (48) hours, the State may, upon notice to Contractor: (a) cease payment of the fees until Contractor resumes performance of the affected obligations; or (b) immediately terminate this Contract or any purchase order, in whole or in part, without further payment except for fees then due and payable. Contractor will not increase its charges under this Contract or charge the State any fees other than those provided for in this Contract as the result of a Force Majeure Event.

- D.25. State and Federal Compliance. The Contractor shall comply with all applicable state and federal laws and regulations in the performance of this Contract.
- D.26. Governing Law. This Contract shall be governed by and construed in accordance with the laws of the State of Tennessee. The Tennessee Claims Commission or the state or federal courts in Tennessee shall be the venue for all claims, disputes, or disagreements arising under this Contract. The Contractor acknowledges and agrees that any rights, claims, or remedies against the State of Tennessee or its employees arising under this Contract shall be subject to and limited to those rights and remedies available under Tenn. Code Ann. §§ 9-8-101 - 407.
- D.27. Entire Agreement. This Contract is complete and contains the entire understanding between the Parties relating to its subject matter, including all the terms and conditions of the Parties' agreement. This Contract supersedes any and all prior understandings, representations, negotiations, and agreements between the Parties, whether written or oral.
- D.28. Severability. If any terms and conditions of this Contract are held to be invalid or unenforceable as a matter of law, the other terms and conditions of this Contract shall not be affected and shall remain in full force and effect. The terms and conditions of this Contract are severable.
- D.29. Headings. Section headings of this Contract are for reference purposes only and shall not be construed as part of this Contract.
- D.30. Incorporation of Additional Documents. Each of the following documents is included as a part of this Contract by reference. In the event of a discrepancy or ambiguity regarding the Contractor's duties, responsibilities, and performance under this Contract, these items shall govern in order of precedence below:
- a. any amendment to this Contract, with the latter in time controlling over any earlier amendments;
 - b. this Contract with any attachments or exhibits (excluding the items listed at subsections c. through f., below);
 - c. any clarifications of or addenda to the Contractor's proposal seeking this Contract;
 - d. the State solicitation, as may be amended, requesting responses in competition for this Contract;
 - e. any technical specifications provided to proposers during the procurement process to award this Contract; and,
 - f. the Contractor's response seeking this Contract.

E. SPECIAL TERMS AND CONDITIONS:

- E.1. Conflicting Terms and Conditions. Should any of these special terms and conditions conflict with any other terms and conditions of this Contract, the special terms and conditions shall be subordinate to the Contract's other terms and conditions.
- E.2. Confidentiality of Records. Strict standards of confidentiality of records and information shall be maintained in accordance with applicable state and federal law. All material and information, regardless of form, medium or method of communication, provided to the Contractor by the State or acquired by the Contractor on behalf of the State shall be regarded as confidential information in accordance with the provisions of applicable state and federal law, state and federal rules and regulations, departmental policy, and ethical standards. Such confidential information shall not be disclosed, and all necessary steps shall be taken by the Contractor to safeguard the

confidentiality of such material or information in conformance with applicable state and federal law, state and federal rules and regulations, departmental policy, and ethical standards.

The Contractor's obligations under this section do not apply to information in the public domain; entering the public domain but not from a breach by the Contractor of this Contract; previously possessed by the Contractor without written obligations to the State to protect it; acquired by the Contractor without written restrictions against disclosure from a third party which, to the Contractor's knowledge, is free to disclose the information; independently developed by the Contractor without the use of the State's information; or, disclosed by the State to others without restrictions against disclosure. Nothing in this paragraph shall permit Contractor to disclose any information that is confidential under federal or state law or regulations, regardless of whether it has been disclosed or made available to the Contractor due to intentional or negligent actions or inactions of agents of the State or third parties.

It is expressly understood and agreed the obligations set forth in this section shall survive the termination of this Contract.

- E.3. Printing Authorization. The Contractor agrees that no publication coming within the jurisdiction of *Tennessee Code Annotated*, Section 12-7-101, *et. seq.*, shall be printed pursuant to this contract unless a printing authorization number has been obtained and affixed as required by *Tennessee Code Annotated*, Section 12-7-103 (d).
- E.4. Reimbursement. This Contract provides for reimbursement of the cost of goods, materials, supplies, equipment, or contracted services. Any goods, materials, supplies, equipment or contracted services procured by Contractor under this Contract shall be procured on a competitive basis when practicable. The Contractor shall maintain documentation supporting Contractor's request for reimbursement. In each instance where it is determined that use of a competitive procurement method was not practicable, Contractor shall seek approval of the Commissioner to procure by non-competitive procurement as a condition for reimbursement.
- E.5. Prohibited Advertising or Marketing. The Contractor shall not suggest or imply in advertising or marketing materials that Contractor's goods or services are endorsed by the State. The restrictions on Contractor advertising or marketing materials under this Section shall survive the termination of this Contract
- E.6. Public Accountability. If the Contractor is subject to Tenn. Code Ann. §§ 8-4-401, *et seq.*, or if this Contract involves the provision of services to citizens by the Contractor on behalf of the State, the Contractor agrees to establish a system through which recipients of services may present grievances about Contractor's operation of the service program. The Contractor shall also display in a prominent place, located near the passageway through which the public enters in order to receive contract-supported services, a sign at least eleven inches (11") in height and seventeen inches (17") in width stating the following:

NOTICE: THIS AGENCY IS A RECIPIENT OF TAXPAYER FUNDING. IF YOU OBSERVE AN AGENCY DIRECTOR OR EMPLOYEE ENGAGING IN ANY ACTIVITY THAT YOU CONSIDER TO BE ILLEGAL, IMPROPER, OR WASTEFUL, PLEASE CALL THE STATE COMPTROLLER'S TOLL-FREE HOTLINE: 1-800-232-5454

The sign shall be of the form prescribed by the Comptroller of the Treasury. The contracting state agency shall request copies of the sign from the Comptroller of the Treasury and provide signs to contractors.

- E.7. Unencumbered Personnel. The Contractor shall not restrict its employees, agents, subcontractors or principals who perform services for the State under this Contract from performing the same or similar services for the State after the termination of this Contract, either as a State employee, an independent contractor, or an employee, agent, subcontractor or principal of another contractor with the State.

- E.8. Personally Identifiable Information. While performing its obligations under this Contract, Contractor may have access to Personally Identifiable Information held by the State ("PII"). For the purposes of this Contract, "PII" includes "Nonpublic Personal Information" as that term is defined in Title V of the Gramm-Leach-Bliley Act of 1999 or any successor federal statute, and the rules and regulations thereunder, all as may be amended or supplemented from time to time ("GLBA") and personally identifiable information and other data protected under any other applicable laws, rule or regulation of any jurisdiction relating to disclosure or use of personal information ("Privacy Laws"). Contractor agrees it shall not do or omit to do anything which would cause the State to be in breach of any Privacy Laws. Contractor shall, and shall cause its employees, agents and representatives to: (i) keep PII confidential and may use and disclose PII only as necessary to carry out those specific aspects of the purpose for which the PII was disclosed to Contractor and in accordance with this Contract, GLBA and Privacy Laws; and (ii) implement and maintain appropriate technical and organizational measures regarding information security to: (A) ensure the security and confidentiality of PII; (B) protect against any threats or hazards to the security or integrity of PII; and (C) prevent unauthorized access to or use of PII. Contractor shall immediately notify State: (1) of any disclosure or use of any PII by Contractor or any of its employees, agents and representatives in breach of this Contract; and (2) of any disclosure of any PII to Contractor or its employees, agents and representatives where the purpose of such disclosure is not known to Contractor or its employees, agents and representatives. The State reserves the right to review Contractor's policies and procedures used to maintain the security and confidentiality of PII and Contractor shall, and cause its employees, agents and representatives to, comply with all reasonable requests or directions from the State to enable the State to verify and/or procure that Contractor is in full compliance with its obligations under this Contract in relation to PII. Upon termination or expiration of the Contract or at the State's direction at any time in its sole discretion, whichever is earlier, Contractor shall immediately return to the State any and all PII which it has received under this Contract and shall destroy all records of such PII.

The Contractor shall report to the State any instances of unauthorized access to or potential disclosure of PII in the custody or control of Contractor ("Unauthorized Disclosure") that come to the Contractor's attention. Any such report shall be made by the Contractor within twenty-four (24) hours after the Unauthorized Disclosure has come to the attention of the Contractor. Contractor shall take all necessary measures to halt any further Unauthorized Disclosures. The Contractor, at the sole discretion of the State, shall provide no cost credit monitoring services for individuals whose PII was affected by the Unauthorized Disclosure. The Contractor shall bear the cost of notification to all individuals affected by the Unauthorized Disclosure, including individual letters and public notice. The remedies set forth in this Section are not exclusive and are in addition to any claims or remedies available to this State under this Contract or otherwise available at law.

- E.9. Liquidated Damages: If one of the following conditions—curriculum is not delivered as specified, documentation not provided as specified, or staffing patterns as specified not maintained—occurs, ("Liquidated Damages Event"), the State may assess damages on Contractor ("Liquidated Damages"). The State shall notify the Contractor of amounts to be assessed as Liquidated Damages. The Parties agree that due to the complicated nature of the Contractor's obligations under this contract, it would be difficult to specifically designate a monetary amount for Contractor's failure to fulfill its obligations regarding the Liquidated Damages Event as these amounts are likely to be uncertain and not easily proven. Contractor has carefully reviewed the Liquidated Damages contained in Attachment Three and agrees that these amounts represent a reasonable relationship between the amount and what might reasonably be expected in the event of a Liquidated Damages Event, and are a reasonable estimate of the damages that would occur from a Liquidated Damages Event. The Parties agree that the Liquidated Damages represent solely the damages and injuries sustained by the State in losing the benefit of the bargain with the Contractor and do not include any injury or damage sustained by a third party. The Contractor agrees that the Liquidated Damages are in addition to any amounts Contractor may owe the State pursuant to the indemnity provision or any other sections of this contract.

The State is not obligated to assess Liquidated Damages before availing itself of any other remedy. The State may choose to discontinue Liquidated Damages and avail itself of any other remedy available under this Contract or at law or equity.
