**AMEND Senate Bill No. 3198\***

**House Bill No. 3214**

by deleting subdivision (6) from SECTION 1, Section 7-52-502(a) and substituting instead the following:

(6) In making a recommendation, the associations may recommend to the authority a joint venture involving a municipal electric distributor and another municipal electric distributor or a rural electric cooperative which shall count as a single pilot project if:

- (A) The joint pilot project has no more than one (1) signal reception point;
- (B) The reception point is operated by the managing electric system; and
- (C) The joint pilot project does not involve systems that serve a total of more than seventy-five thousand (75,000) electric customers on the effective date of this act.

Nothing in this subdivision may be construed to prevent a municipal electric system from providing additional services to a greater number of customers as a single pilot project system or in conjunction with a private provider.
