

HOUSE BILL 570
By Arriola

AN ACT relative to water consumption billing practices.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF THE STATE OF TENNESSEE:

SECTION 1.

(a) The owner or operator of a building containing residential units may install equipment or use an economic allocation methodology to determine the quantity of water that is provided to the tenants and used in the common areas of such a building; and the owner of such a building may charge tenants separately for water and wastewater service based on usage as determined through the use of such equipment or allocation methodology. Notwithstanding the provisions of any law to the contrary, the activities described in this section shall not cause any owner or operator engaging in such activities to be considered the owner or operator of a public water system or a public utility.

(b) The owner or operator of a building containing residential units may charge tenants separately for water and wastewater service, provided that the total amount of the charges to the tenants of such a building shall not exceed the total charges paid by

the owner or operator for water and wastewater service for such building plus a reasonable fee for establishing, servicing, and billing for water and wastewater service and provided, further, that the terms of the charges are disclosed to the tenants prior to any contractual agreement.

SECTION 2. This act shall take effect upon becoming a law, the public welfare requiring it.
