AN ACT To amend Tennessee Code Annotated, Title 9, Chapter 4, relative to the state budget.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF THE STATE OF TENNESSEE:

SECTION 1. Tennessee Code Annotated, Section 9-4-5101(a), is amended by adding the following new, appropriately designated subsection:

(d) A separate section of the budget shall set forth the anticipated revenues of state government from taxes levied by the state. The budget shall also present in this separate section all proposed expenditures of state-levied taxes. No reappropriation of earmarked federal funds, dedicated fees, or other receipts which are statutorily mandated for specific expenditures shall be included in this section of the budget, but shall be included in other sections of the budget.

SECTION 2. Tennessee Code Annotated, Section 9-4-5106, is amended by deleting subsection (a) in its entirety and by substituting instead the following language:

(a) The budget document, presenting the financial plan of the state government for the next fiscal year, shall be set up in four (4) parts, the nature and contents of which are as follows:

(1) Part 1 shall consist of a budget message by the Governor which shall outline the financial policy of the state government for the ensuing fiscal year, describing in connection therewith the important features of the financial plan; it shall also embrace a general budget summary setting forth the aggregate figures of the budget in such manner as to show the balances, relations between the total proposed expenditures and the total anticipated revenues, together with the other means of financing the budget for the next fiscal year, contrasted with the corresponding figures for the last completed fiscal year and for the fiscal year in progress. The general budget summary shall be supported by explanatory schedules or statements, classifying the expenditures contained therein by organization units, objects and funds and the income by organization units, sources, and funds;

(2) Part 2 shall include the segregated information on state-levied taxes and proposed expenditures of state-levied taxes required by Section 9-4-5101(d);

(3) Part 3 shall embrace the detailed budget estimates both of expenditures and revenues as provided in this chapter; it shall also include statement of the bonded indebtedness of the state government, showing the debt redemption requirements scheduled over the fiscal years until the final date of retirement, the net and gross debt of the state, and the condition of the sinking funds; in addition thereto, it shall contain

any statements relative to the financial plan which the Governor may deem desirable, or which may be required by the General Assembly; and

(4) Part 4 shall embrace complete drafts of the budget bills, that is, the legislative measures required to give legal sanction to the financial plan when adopted by the General Assembly. These bills shall include an appropriation bill, authorizing, by spending agencies and by funds, all expenditures of the state government for the next fiscal year, and such other bills as may be required to provide the revenues necessary to finance the budget. The Governor shall submit these bills for introduction in both houses of the General Assembly at the time the budget is submitted.

SECTION 3. This act shall take effect upon becoming a law, the public welfare requiring it.
