

SENATE BILL 2393
By Haynes

AN ACT to amend Tennessee Code Annotated, Title 62, Chapter 32, Part 1, relative to fire protection sprinkler systems.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF THE STATE OF TENNESSEE:

SECTION 1. Tennessee Code Annotated, Title 62, Chapter 32, Part 1, is amended by adding a new section thereto, as follows:

Section 62-32-118.

(a) For the purposes of this chapter, "shop drawings of proposed fire protection sprinkler system installations" shall include working drawings indicating the fabrication, assembly, installation or erection of a fire protection system's components and hydraulic calculations, if applicable.

(b) A fire protection sprinkler contractor, through its responsible managing employee, may perform hydraulics calculations and design a proposed fire protection sprinkler system and prepare shop drawings. A registered engineer's seal or stamp is not required on shop drawings of a proposed fire protection sprinkler system installation.

SECTION 2. This act shall take effect upon becoming a law, the public welfare requiring it.
