(2) “Controlled substance analogue” does not include:

   (A) A controlled substance;

   (B) Any substance for which there is an approved use or new drug application by the federal food and drug administration;

   (C) Any compound, mixture, or preparation that contains any controlled substance that is not for administration to a human being or animal, and that is packaged in such form or concentration, or with adulterants or denaturants, so that as packaged it does not present any significant potential for abuse; or

   (D) Any substance to which an investigational exemption applies under Section 505 of the Food, Drug and Cosmetic Act, 21 U.S.C. § 355, but only to the extent that conduct with respect to the substance is pursuant to such exemption.

(1) In determining whether a substance is a controlled substance analogue, the following factors shall be considered, along with any other relevant factors:
(A) The difference between the price at which the substance is sold and the price at which the substance it is purported to be or advertised as is normally sold;

(B) Its diversion from legitimate channels, and its clandestine importation, manufacture, or distribution;

(C) The defendant's prior convictions, if any, for a violation of any state or federal statute prohibiting controlled substance analogues; and

It may be inferred from circumstances indicating a casual exchange among individuals of a controlled substance analogue that the controlled substance analogue so exchanged was possessed not with the purpose of selling or otherwise dispensing in violation of subsection (c). The inferences shall be transmitted to the jury by the trial judge's charge, and the jury will consider the inferences along with the nature of the substance possessed when affixing the penalty.

(A) Is a derivative of, or substantially similar to, the chemical structure of a controlled substance; or

(A) Is not a derivative of a controlled substance;

(B) Does not have a chemical structure that is substantially similar to that of a controlled substance; or
