

TENNESSEE GENERAL ASSEMBLY
FISCAL REVIEW COMMITTEE

FISCAL MEMORANDUM

HB 197 – SB 280

March 10, 2015

SUMMARY OF ORIGINAL BILL: Redefines “marijuana” by removing the requirement that cannabis oil containing cannabidiol and less than nine-tenths of one percent (0.9%) of tetrahydrocannabinol (THC) be transferred, dispensed, possessed, or administered as part of a clinical research study to be legal possession.

FISCAL IMPACT OF ORIGINAL BILL:

NOT SIGNIFICANT

SUMMARY OF AMENDMENT (003968): Deletes all language after the enacting clause.

Redefines “marijuana” to not include cannabis oil containing cannabidiol and less than nine-tenths of one percent (0.9%) of tetrahydrocannabinol (THC) if the bottle is labeled by the manufacturer as having less than 0.9% THC and the person in possession has proof of the legal order or recommendation from the issuing state and proof that the person or the person’s immediate family has been diagnosed for intractable seizures by a doctor licensed to practice medicine in Tennessee.

FISCAL IMPACT OF BILL WITH PROPOSED AMENDMENT:

Unchanged from the original fiscal note.

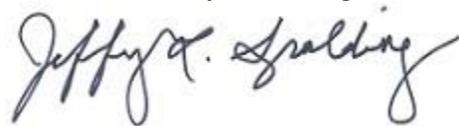

Assumptions for the bill as amended:

- Under current law, “marijuana” includes cannabis oil unless it is being transferred, dispensed, possessed, or administered as part of a clinical research study. The bill removes the requirement that the oil be in possession as part of some study.
- Fiscal Review was not able to find any data on convictions for this specific instance. It is assumed that removing the clinical study requirement will not significantly impact misdemeanor or felony convictions.
- The Administrative Office of the Courts, the District Attorneys General Conference, and the District Public Defenders Conference confirm that the bill will not significantly impact their caseloads.
