FISCAL REVIEW COMMITTEE

**CORRECTED
FISCAL NOTE**

SB 47 – HB 813

February 8, 2016

SUMMARY OF BILL: Establishes that in any year, beginning with FY14-15, in which state revenue growth exceeds three percent over the previous fiscal year, the Hall Income Tax (HIT) rate will be reduced by one percentage point on January 1 for the following calendar year; except that when the rate is reduced to three percent and in the event state revenue growth exceeds three percent over the previous fiscal year after such reduced rate becomes effective, then the subsequent reduction to the rate shall be three-fourths of one percent. Requires the Commissioner of Finance and Administration (F&A), in consultation with the Commissioner of Revenue, on June 15 of any such fiscal year, to certify the amount of the state tax revenue collected for the then current fiscal year and notify the Governor, Speakers of the Senate and House of Representatives, and State Treasurer of such amount, including the amount of any surplus state tax revenue collected. Requires the Commissioner of Revenue to publish, by September 1 immediately following the certification, the HIT rate at which the income derived from stocks and dividends shall be taxed beginning of January 1 of the next calendar year. Changes the local government distribution rate, after any deductions for necessary administrative expenses, from 37.50 percent to: 45.00 percent when the HIT rate is 5.00 percent; 56.25 percent when the HIT rate is 4.00 percent; 75.00 percent when the HIT rate is 3.00 percent; and 100.00 percent when the HIT rate is 2.25 percent, 1.50 percent, or 0.75 percent. Defines “state revenue growth” as, for any tax year, the percentage increase in revenue derived from state taxes and collected by the state.

Increase Local Revenue – Net Impact –
 \$615,000/FY16-17

 \$1,858,400/FY18-19
 \$2,319,600/FY19-20

Decrease Local Revenue – Net Impact –
 \$28,633,600/FY20-21
 \$59,586,900/FY21-22
 \$90,540,200/FY22-23 and Subsequent Years

Other Fiscal Impact – Secondary economic impacts may occur as a result of this bill. Such impacts may be realized due to changes in population or as a result of other behavioral changes prompted by the passage of this bill. Due to multiple unknown factors, fiscal impacts directly attributable to such secondary economic impacts cannot be quantified with reasonable certainty.

Any change in the fiscal impact as a result of state revenue growth not exceeding three percent over the previous fiscal year will be contingent upon the specific fiscal year in which such growth was not exceeded, and the apportionment rate for local government for any such fiscal year. The fiscal impact for the bill in such instances will be significant to both state and local government; however, any such fiscal impacts cannot be quantified.

Based on updated information resulting from an additional year of Hall Income Tax and other state tax collections, the assumptions have been modified to more accurately reflect the impact of the proposed legislation. The corrected fiscal impact is estimated as follows:

Decrease Local Revenue – Net Impact –
\$28,741,600/FY21-22
\$59,802,900/FY22-23

Other Fiscal Impact – Secondary economic impacts may occur as a result of this bill. Such impacts may be realized due to changes in population or as a result of other behavioral changes prompted by the passage of this bill. Due to multiple unknown factors, fiscal impacts directly attributable to such secondary economic impacts cannot be quantified with reasonable certainty.

Any change in the fiscal impact as a result of state revenue growth not exceeding three percent over the previous fiscal year will be contingent upon the specific fiscal year in which such growth was not exceeded, and the apportionment rate for local government for any such fiscal year. The fiscal impact for the bill in such instances will be significant to both state and local government; however, any such fiscal impacts cannot be quantified.

Corrected Assumptions:

- Pursuant to Tenn. Code Ann. § 67-2-102, HIT is a six percent tax on income derived from dividends on stock or from interest on bonds.
- It is assumed that state revenue growth will exceed three percent over the previous fiscal year, beginning with FY15-16.
- The tax changes shall be applied to tax years beginning with tax year 2017, and assuming that 100 percent of HIT owed for tax year 2017 under current law would be collected no later than June 30, 2018, the first year impacted by this bill will be FY17-18. This collection pattern is assumed to remain constant into perpetuity under current law.
- Pursuant to Tenn. Code Ann. § 67-2-119(a), the state retains 62.50 percent of HIT revenue and local governments are apportioned 37.50 percent, after any deductions for necessary expenses for administration.
- Based on the apportionments of HIT collections for the last three fiscal years (FY12-13, FY13-14, and FY14-15), it is estimated that the state retains 64.97 percent of HIT revenue and local governments are apportioned 35.03 percent of the total HIT amounts collected, which is equivalent to 93.41 percent ($35.03\% / 37.50\%$) of the specified rate after deductions for necessary administrative expenses.
- The effective rate of distribution to the local government under this bill will be: 42.03 percent when the HIT rate is 5.00 percent ($45.00\% \times 93.41\%$), 52.54 percent when the HIT rate is 4.00 percent ($56.25\% \times 93.41\%$), 70.06 percent when the HIT rate is 3.00 percent ($75.00\% \times 93.41\%$), and 93.41 percent when the HIT rate is 2.25 percent, 1.50 percent, or 0.75 percent ($100.00\% \times 93.41\%$).
- The current Fiscal Review Committee estimate for HIT collections in FY16-17 is \$270,000,000, of which \$175,419,000 is the state portion ($\$270,000,000 \times 64.97\%$), and

\$94,581,000 is the local government portion ($\$270,000,000 \times 35.03\%$). These numbers are assumed to remain constant in subsequent years under current law.

- Fifty percent of tax savings will be spent in the economy on sales-taxable goods and services.
- The current state sales tax rate is 7.00 percent; the average local option sales tax rate is estimated to be 2.50 percent; the effective rate of apportionment to local government pursuant to the state-shared allocation is estimated to be 3.617 percent.

Assumptions related to FY23-24 and subsequent years:

- The decrease in HIT revenue for the state in FY23-24 and subsequent years is estimated to be \$175,419,000, as the HIT will be fully eliminated.
- The decrease in HIT revenue for the local government in FY23-24 and subsequent years is estimated to be \$94,581,000, as the HIT will be fully eliminated.
- The total tax savings are estimated to be \$270,000,000 ($\$175,743,000 + \$94,257,000$).

Assumptions related to expenditures and secondary economic impacts:

- The Department of Revenue will eliminate all seven HIT audit positions once HIT is fully phased out. The recurring decrease in state expenditures is estimated to be approximately \$500,000. Due to filing extensions and late filings, all auditors will remain in the HIT division through FY23-24.
- There could be subsequent increases in state and local government revenue and expenditures due to the secondary economic impacts prompted by the passage of this bill. Increases in revenue may occur if the state's population increases as a result of reduced tax liability. Increases in expenditures may occur if the demand for governmental programs and infrastructure increases as a result of population increases.

Due to multiple unknown factors, such as the extent and timing of population changes, the fiscal impacts directly attributable to such secondary economic impacts cannot be quantified with reasonable certainty.
