

HB 2162 - SB 2132

February 26, 2020

SUMMARY OF ORIGINAL BILL: Prohibits a health benefit plan that provides coverage for advanced metastatic cancer and associated conditions, from requiring an enrollee fail to successfully respond to a different drug or prove a history of failure of a different drug before providing coverage of a prescription drug approved by the United States Food and Drug Administration. The proposed legislation applies to all health benefit plans entered into, renewed, amended, or delivered on or after July 1, 2020.

FISCAL IMPACT OF ORIGINAL BILL:

Increase State Expenditures - \$9,364,500/FY20-21 and Subsequent Years

Increase Federal Expenditures - \$4,868,200/FY20-21 and Subsequent Years

Increase Local Expenditures - \$1,086,600/FY20-21 and Subsequent Years*

IMPACT TO COMMERCE OF ORIGINAL BILL:

Increase Business Revenue - \$9,364,500/FY20-21 and Subsequent Years

Increase Business Expenditures –
Less than \$9,364,500/FY20-21 and Subsequent Years

SUMMARY OF AMENDMENT (015340): Deletes and replaces all language after the enacting clause such that the only substantive change is to exempt the TennCare and CoverKids programs from the provisions of this legislation.

FISCAL IMPACT OF BILL WITH PROPOSED AMENDMENT:

Increase State Expenditures - \$7,071,000/FY20-21 and Subsequent Years

Increase Federal Expenditures - \$440,400/FY20-21 and Subsequent Years

Increase Local Expenditures \$1,086,600/FY20-21 and Subsequent Years*

Assumptions for the bill as amended:

- Step therapy is the process of trying less expensive medications before stepping up to drugs that cost more.
- The proposed legislation prevents step therapy or the requirement to fail to successfully respond to a different drug or prove a history of failure of different drug for medications treating metastatic cancer and associated conditions.
- Based on information provided by the Division of Benefits Administration, information was provided by both carriers for the State Group Insurance Program.
- The cumulative impact for both carriers will result in a recurring increase in state expenditures estimated to be \$7,071,039, federal expenditures estimated to be \$440,411, and local expenditures estimated to be \$1,086,566, beginning in FY20-21.
- The Department of Commerce and Insurance can enforce the provisions of the proposed legislation utilizing existing resources; therefore, any fiscal impact is estimated to be not significant.

IMPACT TO COMMERCE WITH PROPOSED AMENDMENT:

Increase Business Revenue - \$8,598,000/FY20-21 and Subsequent Years

**Increase Business Expenditures – Less than
\$8,595,000/FY20-21 and Subsequent Years**

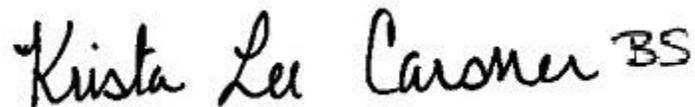

Assumptions for the bill as amended:

- Healthcare providers that provide metastatic drug treatment services will experience an increase in business revenue for providing services estimated to be \$8,598,016 (\$7,071,039 + \$440,411 + \$1,086,566).
- For companies to retain solvency, any increased expenditures will be less than the amount of increased revenues collected. Therefore, the increase in business expenditures is estimated to be less than \$8,598,016.

**Article II, Section 24 of the Tennessee Constitution provides that: no law of general application shall impose increased expenditure requirements on cities or counties unless the General Assembly shall provide that the state share in the cost.*

CERTIFICATION:

The information contained herein is true and correct to the best of my knowledge.
