

TENNESSEE GENERAL ASSEMBLY  
FISCAL REVIEW COMMITTEE

**FISCAL NOTE**

**SB 465 - HB 1001**

March 11, 2019

**SUMMARY OF BILL:** Creates medical amnesty for certain drug and alcohol violations. Extends immunity to a person experiencing a drug overdose and seeking medical attention from being arrested, charged, or prosecuted for a second or subsequent drug overdose.

**ESTIMATED FISCAL IMPACT:**

**NOT SIGNIFICANT**

Assumptions:

- Pursuant to Tenn. Code Ann. § 63-1-156(b), any person who in good faith seeks medical assistance for themselves or a person experiencing or believed to be experiencing a drug overdose is required to not be arrested, charged, or prosecuted of a drug violation resulting from seeking such medical assistance. Such immunity is extended to a person experiencing a drug overdose only on the first overdose.
- The proposed legislation adds alcohol overdose violations to such amnesty and expands the definition of violation to include minors consuming or possessing alcohol, public intoxication, felony drug offenses, and sale of alcohol to a minor.
- The proposed legislation is assumed to increase the frequency that an individual or person in the company of an individual who is experiencing a drug or alcohol overdose seeks medical assistance for themselves or the incapacitated individual. It is estimated that providing immunity for such individuals for additional drug violations, alcohol violations or second and subsequent drug overdoses, will not significantly impact state or local incarceration costs, as the number of felony and misdemeanor convictions for such persons under current law is estimated to be not significant.
- Based on information provided by the Administrative Office of the Courts, any fiscal impact on the trial courts can be absorbed within existing judicial resources.
