

## **FISCAL NOTE**

TO: Chief Clerk of the Senate  
Chief Clerk of the House

FROM: James A. Davenport, Executive Director

DATE: February 21, 1995

SUBJECT: **SB 899 - HB 1279**

This bill, if enacted, will require the Department of Environment and Conservation to award competitive grants to counties, municipalities or commercial solid waste facilities for the purpose of developing methane gas as an alternative energy source.

The fiscal impact from enactment of this bill is estimated to be an increase in state expenditures. Since it is unknown how many counties, municipalities or commercial solid waste facilities would apply and be awarded grants from the solid waste management fund the amount of such increase in state expenditures cannot reasonably be determined but is estimated to exceed \$1,000,000.

This is to duly certify that the information contained herein is true and correct to the best of my knowledge.

James A. Davenport, Executive Director
