Sunset Public Hearing Questions for
Committee for Purchase from the Blind and Other Severely Disabled
Created by Section 71-4-703, *Tennessee Code Annotated*
(Sunset termination June 2017)

1. Provide a brief introduction to the committee, including information about its purpose, statutory duties, staff, and administrative attachment.

The Committee for Purchase from the Blind and Other Severely Disabled was established to oversee a procurement program that promotes gainful employment among disabled citizens by setting aside certain state contacts for products and services to be fulfilled by qualified agencies. The committee chooses a central nonprofit agency to administer the program and oversees program operations much like a Board of Directors. According to Section 71-4-703 (c), the committee is primarily responsible for:

a. Designating a central nonprofit agency and providing oversight of it.
b. Reviewing rules and regulations proposed by the central nonprofit agency and promulgating the rules to implement the statute.
c. Conduct of annual evaluation of the central nonprofit agency's activities for the purpose of assuring efficient and effective administration of the statute.
d. Evaluating proposed pricing for goods and services and ensuring that costs are recovered.

Because the committee includes both members from state agencies that are particularly relevant to its purpose and representatives from the private and nonprofit sectors, it seeks to facilitate good relationships between those who provide goods and services and state agencies that purchase them, as well as seeking direct input from state agencies that serve the disabled. Its role is generally to advise the central nonprofit agency on the best means by which all involved parties' interests are protected and to weigh those interests through open discussion of relevant policies and procedures.

The committee's Liaison is Laura Kinard. Ms. Kinard is the projects manager of Community Rehabilitation Agencies of Tennessee (CMRA), which is the agency designated by the committee as the central nonprofit agency. The committee's administrative tasks are handled by Ms. Kinard and/or other CMRA staff.

2. Provide a list of the committee members and describe how membership complies with Section 71-4-703(a). Are there any vacancies on the committee and, if so, what is being done to fill those vacancies.

In accordance with Section 71-4-703(a), the committee is composed of the commissioners or designees of five state departments: General Services, Finance and Administration, Intellectual and Developmental Disabilities, Mental Health, and Human Services. There are also three members appointed by the governor who are private citizens and serve three-year terms; these members represent a nonprofit work center for the blind, an agency serving people with disabilities, and the business community, respectively. Current committee members are:

Robert G. Rosenbaum, Ed.D, chair- Former President and CEO of Goodwill Industries-Knoxville, Inc., and current head of the Goodwill Foundation of Knoxville, representing an agency serving people with disabilities

Michael Barbour, representing the Tennessee Department of Intellectual and Developmental Disabilities

John C. Bissell, representing the Tennessee Department of General Services

Robert Currie, representing the Tennessee Department of Mental Health

Paula Knisley, representing the Tennessee Department of Human Services

Betsy Loveday, representing Lion's Volunteer Blind Industries, a nonprofit work center for the visually impaired

Conya Mull, representing the business community as Workforce Development Director of Emory Valley Center

Martha Nichols, representing the Tennessee Department of Finance and Administration

3. Does the committee's membership include public/citizen members? Female members? Members of racial minorities? Members who are 60 years of age or older at the time of appointment?

   Yes, three members are private citizens and five are state employees, per Section 71-4-703(a). Of eight members, four are female, one is a racial minority, and three are 60 or older.

4. How many times did the committee meet during fiscal years 2015 and 2016, and how many members were present at each meeting?

   The eight-member committee meets quarterly, with five members present comprising a quorum. It met eight times over the two-year period in question.

August 19, 2014 – six members present
November 18, 2014 – six members present
March 23, 2015 – five members present
May 19, 2015 – five members present
August 18, 2015 – five members present
November 17, 2015 - five members present
February 16, 2016 - six members present
May 17, 2016 – six members present

5. What per diem or travel reimbursement do members receive? How much was paid to committee members during fiscal years 2015 and 2016?

   Section 71-4-703(a) states "Members will serve without compensation but shall be reimbursed for all necessary expenses incurred in the performance of their duties." However, the committee did not pay per diem or travel reimbursement to its members during fiscal years 2015 and 2016; members are typically reimbursed for travel expenses through their respective state departments or employers.

6. What were the committee's revenues (by source) and expenditures (by object code) for fiscal years 2015 and 2016? Does the committee carry a reserve fund balance and, if so, what is the total of that reserve fund balance?

   The committee had no revenues or expenditures during the period covering fiscal years 2015 and 2016. The expenses for meetings are minimal and are absorbed by the central nonprofit agency, which hosts quarterly meetings. As the committee has no dedicated source of revenue, there are no reserve funds designated for the committee.

7. Is the committee subject to Sunshine law requirements (Section 8-44-101 et seq., *Tennessee Code Annotated*) for public notice of meetings, prompt and full recording of minutes, and public access to minutes? If so, what procedures does the committee have for informing the public of its meetings and making its minutes available to the public?

   The committee is subject to Sunshine law requirements (Section 8-44-101 et seq., *Tennessee Code Annotated)* for public notice of meetings, prompt and full recording of minutes and public access to minutes.

   Printed public notices of meetings and availability of minutes are posted at the site of the meeting. Notices may be posted on relevant websites as well. Please see the attached public notice of a committee meeting and availability of minutes.

8. What policies and procedures does the committee have in place to address potential conflicts of interest by committee members, staff and employees?

The committee oversees the procurement program. Members are subject to T.C.A. § 12-4-101. The members may not be directly interested in any procurements and the members must disclose any direct interests. The board of the central nonprofit agency has adopted a similar conflict of interest policy.

9. Section 71-4-703(c)(1), *Tennessee Code Annotated*, requires the committee to "designate a central nonprofit agency to facilitate the distribution, among the work centers for the blind, agencies serving individuals with severe disabilities, and other entities, of orders of the government for commodities or services appearing on the procurement list, by direct allocation, subcontract or any other means". What central nonprofit agency was designated? Please describe the agency. Please list and describe the work centers for the blind and other severely disabled associated with this agency.

   The designated central nonprofit agency is Community Rehabilitation Agencies of Tennessee (CMRA), a 501(c)3 agency with five full-time employees and one part-time employee. CMRA acts as an advocate for work centers providing the service or product for sale and as a liaison between these work centers and state agencies that purchase the certified products and services. CMRA staff coordinates with qualified agencies, the state Certification Committee, Central Procurement Office, Procurement Commission, and purchasing entities to ensure that certified goods and services meet the highest standards of quality and fair pricing, and that they are provided in a timely and consistent manner. CMRA has written subcontracts with qualified agencies to govern their performance and assure compliance with the requirements of the committee and the purchasing entity.

   Participating blind work centers:

   No work centers for the blind are currently participating in the program.

   Participating agencies that serve the severely disabled:

   Dawn of Hope Inc., Johnson City, TN

   Easter Seals of Tennessee, Lexington, TN

   Evergreeen Life Services, Memphis and Chattanooga areas

   Goodwill Industries-Knoxville Inc., Knoxville, TN

   Memphis Goodwill, Memphis, TN

   Hilltoppers Inc., Crossville, TN

   Impact Centers Inc., Columbia

   Independent Opportunities, Inc., Jamestown, TN

   Journeys in Community Living, Murfreesboro

   Madison-Haywood Developmental Services, Jackson, TN

New Horizons Corporation, Nashville, TN

Pacesetters Inc., Algood, TN

Other qualified agencies:

JLL

Liquid Environmental Solutions

Standard Register

US Diagnostics

Woodard Brothers Distributing

10. What kind of review does the committee do concerning the activities of the central nonprofit agency, including rules and regulations proposed by the agency? What rules and regulations have been promulgated and how are they cited?

The committee reviews quarterly all activities of the central nonprofit agency, including procurements and related processes, contract compliance, number of disabled employees and ratio of disabled work hours to non-disabled work hours, marketing and operational goals, and financial statements. The committee has not promulgated rules. The central procurement commission reviews and approves each procurement contract.

11. Describe the commodities and services procured by the state from the work centers. What preference are these commodities and services given over those offered by other vendors?

Services include regular janitorial and day porter services for State and local facilities, lawn maintenance, cleaning and inspection of vehicles in the state motor pool, the servicing of commercial-kitchen grease traps, and operation of the 18 interstate rest areas. .

Products include incontinent pads and briefs, feminine-hygiene products, custom forms, drug-testing kits.

The commodities and services are required to be approved by the central procurement commission. The commission approves the commodities and services as to competitiveness in both quality and price. Once approved, they are given preference over other vendors.

12. How does the production of commodities and services by the severely disabled aid in their rehabilitation? How does the committee ensure that the severely disabled are fairly compensated for their labor?

It teaches job skills which include interpersonal skills and independence. The individuals acquire a sense of self-worth and achievement.

The individuals are paid at least minimum wage, unless the employer has a Special Certificate from the United States Department of Labor, under Section 14(c) of the Fair Labor Standards Act.

13. How often does the committee evaluate the prices set by the central nonprofit agency? Please describe the evaluation process.

    The committee defers to the central procurement commission for approval of specific procurements. The central procurement commission appointed a certification committee to review and make recommendations on procurements as to competitiveness in both quality and price. The certification committee consists of a representative from the Office of the Comptroller, Department of Finance and Administration, Department of General Services, TRICOR, and CMRA as a non-voting member. The certification committee reviews procurements on an annual basis and makes recommendations to the central procurement commission on whether procurements should be approved.

14. Describe any items related to the committee that require legislative attention and your proposed legislative changes.

    There are no items at this time that require legislative attention or need proposed legislative changes, unless there needs to be a clarification on rule promulgation as opposed to including the vendor requirements in the vendor contracts.

15. Should the committee be continued? To what extent and in what ways would the absence of the committee endanger the public health, safety or welfare?

    The committee should continue its efforts to ensure the welfare of Tennesseans with disabilities employed on the state and local government contracts that provide paychecks, fair compensation, on-the-job training, and often a chance to someday compete in the broader workforce. This program is designed to provide employment to people with disabilities who encounter substantial barriers to employment in the typical workforce market.

    It is this committee that oversees the program, providing advice and guidance to the central nonprofit agency and helping it balance the interests of participating work centers, business partners, and state agencies. The committee is the only entity that includes members from agencies that represent both buyers and sellers in this program, as well as agencies that advocate for Tennesseans with disabilities. The program is best served by coordinated, impartial oversight that represents all interested parties. The committee serves this purpose by balancing the direct interests of work centers for the disabled, state agencies representing the

disabled and state agencies responsible for state procurement and payment policies.

The absence of the committee to effectively and impartially oversee the state use program could endanger the welfare of the disabled citizens it employs.

16. Has the committee developed and implemented quantitative performance measures for ensuring it is meeting its goals? If the committee has developed and implemented quantitative performance measures, please answer questions 17 through 24. If the committee has not developed quantitative performance measures, proceed to question 25.

    The committee, as an advisory body, does not have performance goals *per se*; instead, it reviews the performance of the program itself. The committee also receives no direct state or federal funding. Responses to questions 18 and 19 will describe the central nonprofit agency's efforts to quantify program performance, but other questions in this section do not appear to be applicable to the committee.

17. What are your key performance measures for ensuring the committee is meeting its goals? Describe so that someone unfamiliar with the program can understand what you are trying to measure and why it is important to the operation of your program.

18. What aspect[s] of the program are you measuring?

    The central nonprofit agency collects information on the number of Tennesseans with disabilities employed on certified contracts, the number and percentage of hours worked by employees with and without disabilities, demographic data on participating employees, total program sales, the revenues distributed to participating work centers, and analyzes trends in all of the above data. The central nonprofit agency also provides required attestations regarding employees' immigration status twice annually per state vendor requirements, confirmation of insurance for all work centers and business partners, and tracks budget-utilization data for certain contracts as needed. In addition, the central nonprofit agency may require full or partial audits of work centers' payroll records, verify proof of disability for participating employees, and conducts a full audit of its own records annually.

19. Who collects relevant data and how is this data collected (e.g., what types information systems and/or software programs are used) and how often is the data collected? List the specific resources (e.g., report, other document, database, customer survey) of the raw data used for the performance measure.

    Central nonprofit agency staff collect and analyze the vast majority of program data. Participating work centers are required by contract to provide reports regarding employees, which are reviewed and reported to the committee by staff on a quarterly basis. Internal financial records are kept and reported on

AccountEdge software, and basic contract information is collected in Filemaker. All reports provided to the committee are available for review by members of the public upon request.

20. How is the actual performance measure calculated? If a specific mathematical formula is used, provide it. If possible, provide the calculations and supporting documentation detailing your process for arriving at the actual performance measure.

21. Is the reported performance measure result a real number or an estimate? If an estimate, explain why it is necessary to use an estimate. If an estimate, is the performance measure result recalculated, revised, and formally reported once the data for an actual calculation is available?

22. Who reviews the performance measures and associated data/calculations? Describe any process to verify that the measure and calculations are appropriate and accurate.

23. Are there written procedures related to collecting the data or calculating and reviewing/verifying the performance measure? Provide copies of any procedures.

24. Describe any concerns about the committee's performance measures and any changes or improvements you think need to be made in the process.

25. Please list all committee programs or activities that receive federal financial assistance and, therefore are required to comply with Title VI of the Civil Rights Act of 1964. Include the amount of federal funding received by program/activity.

If the committee does receive federal assistance, please answer questions 26 through 33. If the committee does not receive federal assistance, proceed directly to question 32.

26. Does your committee prepare a Title VI plan? If yes, please provide a copy of the most recent plan.

27. Does your committee have a Title VI coordinator? If yes, please provide the Title VI coordinator's name and phone number and a brief description of his/her duties. If not, provide the name and phone number of the person responsible for dealing with Title VI issues.

28. To which state or federal agency (if any) does your committee report concerning Title VI? Please describe the information your committee submits to the state or federal government and/or provide a copy of the most recent report submitted.

29. Describe your committee's actions to ensure that committee staff and clients/program participants understand the requirements of Title VI.

30. Describe your committee's actions to ensure it is meeting Title VI requirements. Specifically, describe any committee monitoring or tracking activities related to Title VI, and how frequently these activities occur.

31. Please describe the committee's procedures for handling Title VI complaints. Has your committee received any Title VI-related complaints during the past two years? If yes, please describe each complaint, how each complaint was investigated, and how each complaint was resolved (or, if not yet resolved, the complaint's current status).

32. Please provide a breakdown of current committee staff by title, ethnicity, and gender.

    The committee is staffed by its liaison and the executive director of the central nonprofit agency:

    - Laura Kinard, central nonprofit agency projects manager, white female
    - Robin Atwood, central nonprofit agency executive director, white female

33. Please list all committee contracts, detailing each contractor, the services provided, the amount of the contract, and the ethnicity of the contractor/business owner.

    The committee does not contract with any agencies, vendors, or other entities.

    The central nonprofit agency has contracts with various departments within Tennessee government and some local government entities. A list of current (as of August 2016) certified contracts is attached.
